CHAPTER 3
BLACK BEAR HUNTING SEASONS

Section 1. Authority. This regulation is promulgated by authority of Wyoming Statutes § 23-1-302 and § 23-2-104.

Section 2. Hunting Seasons Established. There shall be open seasons for the hunting of black bear as set forth in this chapter and in accordance with Chapter 2, General Hunting Regulation.

Section 3. Definitions. In addition to the definitions set forth in Title 23 of the Wyoming Statutes and Chapter 2, General Hunting Regulation, the Commission also adopts the following definitions for the purpose of this chapter:

(a) “Baiting” means placing or utilizing a processed bait or an unprocessed bait as a lure or attractant for the purpose of taking black bear.

(b) “Chemical attractant” means any chemical(s) used as a lure or mask rather than for consumption.

(c) “Dependent young” means any black bear cub of the year or yearling black bear traveling with an adult female black bear.

(d) “GPS coordinates” means a specified geographic location defined by any universal coordinate system that will direct Department personnel to within fifty (50) yards of a registered bait site.

(e) “Immediately” means following the observation of a grizzly bear using a bait, the person registering the bait, the person placing the bait or the person hunting over the bait shall report, without delay, said use to the Wyoming Game and Fish Department. Immediately also means any person taking a grizzly bear shall report, without delay, to the Wyoming Game and Fish Department in accordance with Section 12 of this regulation.

(f) “Mortality” means any legal or illegal human caused female black bear death, excluding female black bears taken by the Department, female black bears taken under the authority of W.S. § 23-3-115(a) and known natural and accidental female black bear deaths.

(g) “Processed bait” means a nontoxic biodegradable substance.

(h) “Prohibited bait” means big game animals, small game animals, game birds, game fish, protected animals, protected birds or parts thereof placed for the purpose of attracting a bear.
“Unprocessed bait” means livestock or livestock parts that have not been processed for human consumption, or wildlife or wildlife parts that are not otherwise prohibited in Section 3(h).

“Water” means permanent rivers, streams, lakes or ponds.

Section 4. Hunting Regulations.

(a) Hunters may take any black bear except dependent young and female black bears with dependent young at side.

(b) Registering Kills. A hunter taking a black bear shall retain the pelt and skull from each black bear taken for registration purposes. Even if the skull is damaged, it shall accompany the pelt. Visible external evidence of sex shall remain naturally attached to the pelt. Within seventy-two (72) hours, after taking a black bear, the licensee shall present the pelt and skull to a district game warden, district wildlife biologist or Department personnel at a Department Regional Office during business hours for registration. The pelt and skull shall be presented in an unfrozen condition in order to allow collection of two (2) premolar teeth to be utilized to determine the age of the black bear and to allow examination of the pelt to determine the sex and possible lactation status of the black bear. A hunter taking a black bear in designated wilderness areas in hunt areas 13, 19, 20, 21, 22, 23, 24, 25, 26 or 28 shall report their harvest by telephone or in person within seventy-two (72) hours and shall present the pelt and skull to a district game warden, district wildlife biologist or Department personnel at a Department Regional Office during business hours for registration within ten (10) days from the date of harvest or within three (3) days after returning from a designated wilderness area. The hunter making the telephone report shall contact a district game warden, district wildlife biologist or Department personnel at a Department Regional Office and provide their name, license number, date of kill, sex of bear, hunt area and the general location of the kill site including drainage. At the time of registration, the hunter shall furnish the Department their license number, date of kill and the location of the site of kill to include hunt area, section, township and range or GPS coordinates.

(c) Any person who makes a false statement on the registration form is in violation of this regulation.

Section 5. Registration, Number, Placement, Removal and Identification of Baits on Federal or State Lands. The provisions in this section shall only apply to the registration, number, placement, removal and identification of baits on federal lands or state lands, including lands owned or administered by the Wyoming Game and Fish Commission.

(a) Registration of bait site(s).

(i) A person who registers a bait site(s) for the first time shall only register in person or by a representative of the applicant at any Department Regional Office beginning April 1 at 8:00 a.m. for the current calendar year. If April 1 occurs on a day when Department Regional Offices are closed, applications to register a bait site shall be accepted beginning at 8:00 a.m. on the next business day. Applications for bait site registration shall be accepted only if
a bait site location is available. Following the preference period, first time registration of a bait site shall be accepted on a first come, first served basis.

(ii) A person may register the same bait site(s) they registered in the previous calendar year by telephone, mail, facsimile or on the Department website. Bait site registration renewal may be applied for in person or by a representative of the applicant.

(A) Persons who had a bait site(s) registered the previous calendar year may register the same bait site(s) March 1 through March 20. Applications to register a bait site(s) shall not be accepted by the Department prior to 8:00 a.m. March 1, or 8:00 a.m. of the first business day following March 1 if March 1 occurs on a day when Department Regional Offices are closed. If March 20 occurs on a day when Department Regional Offices are closed, applications to register a bait site shall be accepted up to 5:00 p.m. on the next business day.

(B) For the purpose of receiving preference to register a bait site, a person shall have placed a bait at a properly registered bait site and provided GPS coordinates for that bait site to the Department during the previous calendar year in accordance with Commission regulations. A person who fails to meet this requirement shall lose all preference to register that bait site and shall be considered as a first time registrant for that bait site during the following calendar year.

(C) Bait sites that are not renewed during the preference period shall be available for registration beginning April 1.

(iii) A person shall not change a registered bait site location during the calendar year for which the bait site was registered by the Department.

(iv) A registered bait site shall not be transferred to another person in the same calendar year in which the bait site was registered.

(v) Bait site(s) registration shall be valid for the calendar year in which the site(s) was registered.

(vi) Prior to placement of a bait(s), the bait site(s) registration shall be approved by the Department.

(A) To register a bait site(s), an applicant or representative of an applicant registering the bait site(s) shall provide all information required on the bait site registration form. Any person who makes a false statement on the bait site registration form shall be in violation of this regulation.

(B) The Department shall review the information provided on the bait site(s) registration form. If the Department approves the bait site registration, the applicant shall be furnished a copy indicating the site has been approved. The registration form shall include the name, address, telephone number and valid Wyoming black bear hunting license number of the person desiring to register the bait; and, the name of the person registering the bait site(s) if
the registration is by a representative other than a licensed outfitter. If a licensed outfitter desires to utilize the bait site(s) for outfitting black bear hunters, the outfitter’s license number shall be furnished in lieu of the valid Wyoming black bear hunting license number. The registration form shall include the legal description of the bait site location to include the range, township, section and GPS coordinates. GPS coordinates of a registered bait site shall be provided on the bait site registration form at the time of application, or within seven (7) days after placing any bait at a registered bait site. A registration form which has not been completed with all required information shall not be considered a valid registration and shall be denied by the Department.

(b) Number of black bear baits and bait density. No hunter shall register or place more than two (2) baits during the calendar year. A person licensed as an outfitter in Wyoming for the current calendar year shall register or place no more than twenty (20) baits for their outfitting business use during the calendar year. Bait density shall be no more than one (1) bait per section as illustrated on U.S. Forest Service or Bureau of Land Management maps.

(c) Placement and removal of baits. No person shall place a bait or hunt over a bait that is not enclosed in a rigid container(s) of wood, metal or plastic not to exceed a combined total of eight (8) cubic feet, the approximate size of a fifty-five (55) gallon drum. Holes in containers shall be smooth and not constructed to function as a trap. No person shall place a bait or hunt over a bait that has not been registered with the Department in accordance with this regulation. No person shall place a bait or hunt over a bait that is less than two hundred (200) yards from water; less than two hundred (200) yards from roads or pack trails; nor less than one-half (1/2) mile from a developed campground, picnic ground or building. Upon request, persons placing bait(s) shall be required to escort the Regional Wildlife Supervisor or his designee to the bait site(s). No person shall place a bait within a hunt area more than seven (7) days prior to the opening day of the black bear special archery or general season as listed in Section 10 of this regulation. Registered baits placed in the spring season, including all containers and bait materials, shall be removed within seven (7) days after the close of the spring season as listed in Section 10 of this regulation. Registered baits placed in the fall season, including all containers and bait materials, shall be removed within seven (7) days after the close of the fall season as listed in Section 10 of this regulation. Burial of the bait is prohibited and shall not constitute removal of the bait.

(d) Identification of bait site(s). The name and address or the current year's black bear license number or the sportsperson identification number of the person who registered the bait, or the name and address or current year's outfitter's license number of the licensed outfitter registering the bait site(s) shall be legible and permanently affixed to or painted on the outside of the container(s) enclosing the bait.

Section 6. Areas Open and Areas Closed to Black Bear Baiting; Restrictions on Use of Processed and Unprocessed Baits.

(a) All black bear hunt areas shall be open to the baiting of black bear except those hunt areas and those portions of hunt areas listed in this section.
(i) Black Bear Hunt Areas 22, 25, 26, 32 and that portion of Black Bear Hunt Area 23 on U.S. Forest Service, Bureau of Land Management and State lands, including lands administered by the Wyoming Game and Fish Commission, shall be closed to baiting.

(ii) That portion of Black Bear Hunt Area 27 north and west of the Wood River on U.S. Forest Service, Bureau of Land Management and State lands including lands administered by the Wyoming Game and Fish Commission, shall be closed to baiting.

(iii) That portion of Black Bear Hunt Area 28 on the Shoshone National Forest north of Pelham Lake, Pelham Lake Creek and Lava Mountain shall be closed to baiting.

(iv) Those portions of Black Bear Hunt Areas 7 and 35 on the Pole Mountain Unit of the Medicine Bow National Forest shall be closed to baiting.

(v) All designated Wilderness Areas in National Forests shall be closed to baiting. Hunters should check maps of designated Wilderness Areas at the Department Headquarters or Regional Offices.

(vi) The primary conservation area for grizzly bears shall be closed to baiting and no bait registrations shall be issued within that area. Hunters may view a map of the primary conservation area for grizzly bears on the Department website.

(vii) Areas administered by the U.S. Forest Service, Bureau of Land Management or the Wyoming Game and Fish Commission in which human access has been restricted to protect wintering wildlife shall be closed to baiting. Such areas, if not already closed by this section, shall be closed to black bear baiting during the time period for which the areas have been closed to human access.

(b) Only unprocessed baits shall be utilized for the baiting of black bears in Black Bear Hunt Area 18 and those portions of Hunt Areas 19, 20, 21, 23, 24, 27, 28 and 29 in which bear baiting is not excluded by Section 6(a).

(c) Processed or unprocessed baits shall be utilized for the baiting of black bears in Black Bear Hunt Areas 1-17, 30, 31, 33, 35.

(d) Chemical attractants are not considered bait and may be used in all black bear hunt areas of the state.

Section 7. Reporting Use of Bait by a Grizzly Bear. Any person registering a bait site, placing a bait, hunting at a bait site or witnessing the use of a bait site by a grizzly bear shall immediately report use of the bait by a grizzly bear to the Department (1-877-WGFD-TIP). Regardless of the land status whether federal, state or private, no person shall hunt black bear over a bait site utilized by a grizzly bear for the remainder of the current black bear hunting season. The bait site(s) shall be closed for the remainder of the current black bear hunting season and the bait may be removed as soon as possible by personnel of the Department.
Section 8. Prohibited Bait. No person shall place any prohibited bait for the purpose of baiting black bears. Baiting for black bear with a substance other than those defined as a bait in Section 3 or in a manner other than as specified in Section 5 shall be prohibited on federal or state lands, including lands administered by the Wyoming Game and Fish Commission.

Section 9. Area Mortality Limits. The black bear hunting season shall close in each black bear hunt area or group of hunt areas when the female mortality limit specified for the respective hunt area or group of hunt areas has been reached. If the female mortality limit is not reached, the season shall close upon the date specified in Section 10. If the female mortality limits for the spring hunting season are exceeded, the additional mortalities shall be subtracted from the fall mortality limits. Conversely, if female mortality limits in the spring have not been reached, the portion of the limit remaining shall be added to the fall mortality limit. It is the hunter’s responsibility to confirm that the hunt area the person intends to hunt is open. The status of hunt area closures shall be available twenty-four (24) hours a day by calling toll free 1-800-264-1280.
