

WGFD Chapter 33 Permit Addendum

Survival Rate Estimates for Marked Big Game

Version 2013

Research/Monitoring Project Name:

Principal Investigator Name:

Focal Species:

WGFD Herd Unit:

WGFD Hunt Area(s):

Collar VHF Frequency Range: to

Calendar Year:

Adult Capture Date (Month/Year):

Juvenile Capture Date (Month/Year):

Adult Females							
Month	No. Marked Animals	Mortalities by Cause of Death*					
		No. Predated	No. Road-killed	No. Diseased	No. Hunter-killed	No. Other	No. Unknown
January							
February							
March							
April							
May							
June							
July							
August							
September							
October							
November							
December							

* Do **NOT** include capture-related mortalities or animals unaccounted for in the table above.

No. of Capture-Related Adult Female Mortalities within 2 Weeks of Capture (injury/myopathy):

No. Marked Adult Females Unaccounted For:

(dispersed out of area / unable to locate, collar malfunction, illegal poaching, etc.)

Adult Males							
Month	No. Marked Animals	Mortalities by Cause of Death*					
		No. Predated	No. Road-killed	No. Diseased	No. Hunter-killed	No. Other	No. Unknown
January							
February							
March							
April							
May							
June							
July							
August							
September							
October							
November							
December							

* Do **NOT** include capture-related mortalities or animals unaccounted for in the table above.

No. of Capture-Related Adult Male Mortalities within 2 Weeks of Capture (injury/myopathy):

No. Marked Adult Males Unaccounted For:

(dispersed out of area / unable to locate, collar malfunction, illegal poaching, etc.)

Juveniles (<1 year old)**							
Month	No. Marked Animals	Mortalities by Cause of Death*					
		No. Predated	No. Road-killed	No. Diseased	No. Hunter-killed	No. Other	No. Unknown
January							
February							
March							
April							
May							
June							
July							
August							
September							
October							
November							
December							

* Do **NOT** include capture-related mortalities or animals unaccounted for in the table above.
