Review the laws and regulations including methods of take and unlawful practices on pages 5-10.

Review general creel limits on page 5.

Consult statewide map on page 22 for drainage boundaries.

Use color indexed pages for easy reference to regulations and seasons for drainage areas 1-5 on pages 23-33.

Only exceptions to general fishing or boating regulations are shown for each area. Look for area wide, drainage, and individual water exceptions within each area on pages 23-33.

Statewide creel limits on page 5 apply if a specific water or drainage of interest is not listed in the exceptions on pages 23-33.

New or revised regulations and information for 2018 are highlighted in BLUE.

Regulations that apply to a broad geographic area appear in YELLOW boxes.

This fishing regulation booklet was printed in December 2017.
Inspect machines, trailers, boots and equipment for mud and plant debris.

Hunt and hike in designated areas and travel on established roads and trails.

Clean, drain and dry all recreational vehicles and equipment before leaving.

Do not carry firewood in or out of your destination.

Dispose of all material that may have attached to machines, trailers and equipment.

Learn to identify invasive species in your area

STATUTORY AUTHORITY
This booklet is a summary of Wyoming Game and Fish Commission Fishing Regulations (Chapter 46) for 2018 that became effective January 1, 2017 and shall remain in effect until modified or rescinded by the Commission. These regulations are promulgated by authority of W. S. §23-1-101, §23-1-302, §23-2-206, §23-2-209, §23-3-201, §23-3-202, §23-3-308, §23-3-401, §23-4-101, §23-4-103, and §23-6-111.

DISCLAIMER
This booklet is a condensed summary of Chapter 46 and many other applicable wildlife laws and other important information. This summary is in no way intended to alter content or statutory intent of those laws. If you have any questions regarding the precise language, you can view a copy of the Wyoming Game and Fish Department Statutes (Title 23) online*. Official Wyoming Game and Fish Commission Regulations are available from any Game and Fish Department office and can be viewed online at wgfd.wyo.gov/regulations#Fish.

The maps in this publication are designed to help anglers reference appropriate regulations. The locations shown cannot be considered legally proper or exact.

* Conservation stamp is not required for this license.
** Available only from the Cheyenne Headquarters Office.
† You must have continuously resided in Wyoming for at least 10 years immediately preceding the date of application to be eligible for lifetime licenses.

---

**RESIDENT**
means a person who has been a resident of Wyoming and domiciled in Wyoming for not less than one year and who has not claimed residency elsewhere for any purpose during that one-year period immediately preceding the date of application for a license. A detailed explanation of residency requirements can be found online at wgfd.wyo.gov/Hunting/Am-I-a-Wyoming-Resident.

**RESIDENT YOUTH**
under 14 do not need a license and their creel limit is the same as those requiring licenses.

**NONRESIDENT YOUTH**
under 14 do not need a license if accompanied by an adult possessing a valid Wyoming fishing license; however, the nonresident youth’s creel limit shall be applied to and limited by the fishing license held by the adult person in his/her company. Nonresident youth under 14 that possess a valid daily or nonresident youth annual fishing license may capture and possess a full creel limit.

**PIONEER**
To be eligible for a free combination Pioneer Game Bird, Small Game and Fishing license, you must be a resident who is sixty five (65) years of age or older and who has continuously resided in Wyoming for at least thirty (30) years IMMEDIATELY preceding application for the license. The Pioneer Bird, Fish and Small Game license is valid as long as the licensee remains a Wyoming resident.

**CONSERVATION STAMP REQUIRED**
Each person licensed to hunt or fish in Wyoming shall purchase one (1) conservation stamp valid for the calendar year. The stamp shall be signed in ink and shall be in the possession of the person while HUNTING OR FISHING. Hunters or anglers who acquire a lifetime conservation stamp or a conservation stamp authorization from the Department’s computerized point of sale license issuance system shall not be required to meet the signature provision.

Persons holding the following licenses are exempt from the requirement to purchase a conservation stamp while exercising hunting or fishing privileges under THESE licenses:
- daily hunting or fishing license;
- special limited fishing permit holders; or
- Wyoming fifty percent (50%) disabled veteran fishing license.

Persons holding the following licenses are exempt from the requirement to purchase a conservation stamp while exercising hunting or fishing privileges under ANY Wyoming license. The person shall at all times be in possession of the license allowing the conservation stamp exemption while in the field:
- any Wyoming pioneer hunting or fishing license;
- Wyoming one-hundred percent (100%) disabled veteran game bird, small game and fishing license;
- military combat general elk or general deer license; or
- military combat game bird or small game license.

Conservation stamps may be purchased from Cheyenne Headquarters, Regional Offices, license selling agents throughout the state, and the Department’s website at wgfd.wyo.gov. A lifetime conservation stamp may be purchased by applying to the Cheyenne Headquarters Office, License Section.

| Trout in combination (includes brown, cutthroat, grayling, golden, rainbow, salmon, splake, tiger trout, and other trout hybrids). Excludes brook trout and lake trout. | LAKES: six (6)  
STREAMS: three (3) No more than one (1) trout shall exceed sixteen (16) inches.  
TOTAL STREAMS AND LAKES COMBINED: six (6) |
| Brook trout                                       | Sixteen (16)                             |
| Lake trout                                        | Six (6) No more than one (1) lake trout shall exceed twenty-four (24) inches. |
| Burbot (ling)                                     | Three (3). See drainage area exceptions on pages 23, 28 and 31. |
| Channel catfish                                   | Six (6)                                  |
| Largemouth and smallmouth bass in combination     | Six (6)                                  |
| Northern pike                                     | See drainage area exceptions.            |
| Sauger                                            | Two (2)                                  |
| Shovelnose sturgeon                               | Two (2)                                  |
| Tiger muskie (sterile northern pike muskellunge hybrid) | One (1), all tiger muskie less than thirty-six (36) inches in length shall be released to the water immediately. |
| Walleye                                           | Six (6)                                  |
| Whitefish                                         | Six (6)                                  |
| Yellow perch, black bullhead, stonecat, crappie, rock bass, bluegill, pumpkinseed, green sunfish, green sunfish-bluegill hybrid, freshwater drum in combination | Fifty (50)                                  |

Except as otherwise provided, no person shall harvest and keep during any one (1) day, or have in possession, more than the number and length of game fish specified as the general creel limits listed above. Exceptions are listed with the regulations for each drainage area on pages 23-33.

Except as otherwise provided in the exception for an individual water, the total combined creel limit for the Trout in combination category, regardless of the waters (streams, lakes, or a combination of both) a person is fishing, shall not exceed six (6) trout per day or in possession.

Any fish caught that is not to be counted in the creel limit shall be immediately released to the water with as little injury to the fish as possible. Any fish placed on a stringer, in a container, in a live well, or not released immediately to the water, shall be considered to be reduced to possession of the angler and shall be killed prior to being transported from the water of origin. No fish that has been reduced to possession of the angler shall be released alive without prior written approval from the Department.

All fish possessed or transported shall be kept in a manner that species and numbers can be determined. When length limits apply, the whole body shall remain intact (gills and entrails can be removed) while in transit or in the field. Where length limits do not apply, a piece of skin large enough to allow species identification (at least one (1) inch square) shall remain on all fish fillets while in transit or in the field, except as otherwise provided in Areas 2, 3 and 5 for walleye and sauger harvested in the Wind River, Big Horn River and Tongue River drainages and Glendo Reservoir and in Area 4 for lake trout harvested in Flaming Gorge Reservoir.

There are no creel limits on nongame fish. Nongame fish may be taken by the use of legal fishing methods during any season open for the taking of game fish.

FREE FISHING DAY!  June 2, 2018

You can fish without a license on Free Fishing Day! Each year, the Wyoming Game and Fish Department designates the first Saturday of National Boating and Fishing Week as a free fishing day when anyone can fish in Wyoming without a fishing license. National Boating and Fishing Week is a celebration that highlights the importance of recreational boating and fishing in enhancing quality of life and preserving our country’s national beauty. All fishing regulations, creel and size limits, gear restrictions, and stream closures remain in effect. We hope you will take the opportunity to celebrate this special week by going fishing with family and friends. Watch for details on our website wgfd.wyo.gov.
See area regulations on pages 23-33 for exceptions to the statewide regulations on pages 5-10.

**TERMS AND DEFINITIONS**

**Aquaria**
means any enclosures used to contain organisms that prevent escape. Aquaria shall have a closed system of water circulation with no risk of contacting the surface waters of the State.

**Archery Equipment**
means crossbows, longbows, recurve bows, compound bows and arrows.

**Artificial Flies and Lures**
means manmade flies and lures. Artificial lures are single devices regardless of the number of hooks, including spoons, spinners and plugs made of metal, plastic, wood or other non-edible materials, or plastic products made to resemble worms, eggs, fish or other aquatic organisms. Artificial flies include flies, streamers, jigs, or poppers tied from such materials as thread, feathers, hair or tinsel. Artificial flies and lures do not include living or dead organisms or edible parts thereof, natural or prepared organic food stuffs, or chemical attractants, regardless if the chemical attractant is added in the manufacturing process or applied afterward.

**Artificial Light**
means any man-made light or lighting device.

**Aquatic Invasive Species**
means:
- Zebra and quagga mussel (GENUS Dreissena);
- New Zealand mudsnail (Potamopyrgus antipodarum);
- Asian clam (Corbicula fluminea);
- Rusty crayfish (Orconectes rusticus);
- Brook stickleback (Culaea inconstans);
- Bighead, silver and largescale silver carp (GENUS Hypophthalmichthys);
- Black carp (Mylopharyngodon piceus);
- Snakehead (GENERA Channa and Parachanna);
- Hydridilla (Hydrilla verticillata);
- Eurasian watermilfoil (Myriophyllum spicatum); and
- Curly pondweed (Potamogeton crispus)

**Bait**
means living or dead organisms or edible parts thereof, natural or prepared organic food, and chemical attractants used in the taking of fish.

**Baitfish**
means nongame fish not designated as aquatic invasive species that were collected or purchased for use as bait.

**Business Establishment**
means a single business location with an associated physical address designated on the live baitfish dealer's license.

**Commericaly Produced Live Baitfish**
means adult fathead minnows that were propagated and reared in a Department approved private fish hatchery.

**Creel Limit**
means the total number of game fish a person may harvest and reduce to possession during any one (1) day, or have in possession, regardless of the method or methods of harvest.

**Dates**
means the dates mentioned are inclusive.

**Day**
means calendar day.

**Drainage**
means the river or stream proper and the area of land, including all streams and standing waters, that drains into that river or stream.

**Fishing Contest**
means any event for catching fish on waters of the state, excluding licensed fishing preserves or hatchery catch out ponds, where an entry or participation fee is charged and fifty (50) or more adult (18 years of age or older) anglers participate on a given date.

**Fishing Contest Permit**
means a document issued by the Department that grants the permittee authorization to conduct a fishing contest.

**Game Fish**
unless otherwise provided for specific waters or drainages on pages 23-33, means:
- bass (GENUS Micropterus and Ambloplites);
- bluegill, pumpkinseed and sunfish (GENUS Lepomis);
- crappie (GENUS Pomoxis);
- walleye and sauger (GENUS Sander);
- yellow perch (GENUS Perca);
- trout, salmon, and char (GENUS Salmo, Oncorhynchus and Salvelinus);
- whitefish and cisco (GENUS Prosopium);
- grayling (GENUS Thymallus);
- pike (GENUS Esox);
- catfish and bullheads (GENUS Ameiurus, Ictalurus, Noturus and Pylodictis);
- burbot (GENUS Lota);
- sturgeon (GENUS Scaphirhynchus); and,
- freshwater drum (GENUS Aplodinotus).

**Hook**
means a single hooked device or bait regardless of the number of prongs.

**Lake**
means a body of standing water in a depression of land and includes reservoirs, ponds (excluding ponds created by beavers) and gravel and mining pits.

**Live Baitfish Dealer**
means a person licensed by the Department to sell live baitfish.

**Live Baitfish Dealer of Record**
means the designated individual legally accountable for all aspects of the live baitfish dealer.

**Length**
means the total length of a fish in inches, as measured in a straight line along a flat surface, from the tip of the snout to the tip of the tail.

**Nongame Fish**
means all fish not defined as game fish or aquatic invasive species, including baitfish.

**Personal Watercraft**
means any inboard motorized watercraft less than sixteen (16) feet in length which has a water-jet pump as its primary source of motor propulsion and which is designed to be operated by a person sitting, standing or kneeling on the watercraft, rather than the conventional manner of sitting or standing inside the watercraft.
Possession Limit
means the maximum number of game fish that may legally be in possession at any time and in any form. Game fish in transit or storage, including home or domicile, shall be considered in possession. Possession limits apply regardless of how many days an angler has fished.

Snag
means attempting to take a fish in a manner that the fish does not take the hook voluntarily in its mouth.

Special Fishing Contest Provision
means a provision promulgated for exclusion of fishing contests for specific waters.

Special Winter Ice Fishing Provision
means a provision promulgated for the ice covered period for specific waters.

Stream
means water in a permanent bed or channel with a current that is usually continuous in one direction and includes creeks, rivers, irrigation ditches, drains, canals, sloughs and ponds created by beavers. Streams may not flow continuously during low-flow periods. Ponds or puddles in a stream channel during low flow periods shall be considered to be a stream.

Trout Bead
means a bead constructed from any non-edible material to resemble a trout egg that is fished on a line or leader above a hook or artificial fly. Beads associated with spinners, bait harnesses and other types of artificial lures are not considered trout beads.

Wild Caught Live Baitfish Possession Area
means the specific drainage in Area 2, 3 or 5 where wild caught live baitfish may be possessed regardless of whether they were captured by a seining license holder or obtained from a live baitfish dealer.

SEASONS AND FISHING HOURS
Fishing is permitted year-round twenty-four (24) hours a day in any of the waters in the state except as otherwise provided by Commission regulation for specific areas, streams, lakes, or portions thereof. Exceptions are listed with the regulations for each drainage area on pages 23-33.

EMERGENCY CLOSURE
Specified waters may be closed to all fishing because of an emergency upon forty-eight (48) hours notice.

METHODS
Except as otherwise provided, fish shall only be taken or fished for with a maximum of two (2) rods or poles, with lines and hooks attached and the angler in attendance. No line may have more than three (3) single hooked devices attached. It is legal to use hand lines, set lines, poles, or tip ups when fishing through the ice and the angler is in attendance.

Internal organs, eggs, eyes, fins, and skin of game fish are the only portions that may be used legally as bait. Any part of nongame fish may be used as bait. The use of bait may be restricted on specific waters as described in the Area Regulations on pages 23-33. Use or possession of bait is prohibited in areas or on waters where fishing is permitted by the use of artificial flies and lures only. Corn may be possessed and used as bait in all waters where fishing with bait is permitted.

It is unlawful to snag fish.

A trout bead fixed on a line or leader two (2) inches or less from the eye of a bare hook is considered an artificial lure. Fishing with a trout bead more than two (2) inches from the eye of a bare hook or artificial fly is considered snagging and is prohibited.

It is unlawful to take, wound or destroy fish with a firearm of any nature or by using poison, deleterious drug, electrical device, chemical, explosive or any similar substance or device. It is legal to take nongame fish with archery equipment without a license or permit, but it is always unlawful to take game fish with archery equipment.

Artificial light may be used while fishing with legal fishing methods except as prohibited for Underwater Spear Gun Fishing below.

Underwater Spear Gun Fishing
Fish may be taken by underwater spear gun fishing only in lakes. No person shall use an underwater spear gun to take game fish under water without obtaining a fishing license. The use of artificial light to take game fish with a spear gun is prohibited.

No game fish may be taken unless the underwater spear gun fisherman is completely submerged.

All spears used on spear guns shall be attached to the spear gun with a lanyard with a maximum length of twenty (20) feet. Underwater spear gun fishing is not permitted within one hundred (100) yards of any designated swimming or water ski areas, boat dock, ramp or spillway.

A diver flag shall be displayed on the water when diving or underwater spear gun fishing. It shall be a rectangular flag that is either blue and white in color (alpha flag) or red in color with a white diagonal stripe (diving flag), not less than twelve (12) inches x twelve (12) inches and displayed no less than three (3) feet above the surface of the water.

The limit on walleye taken by spear gun shall be two (2) wALLEY per day or in possession, except where designated as nongame fish or where otherwise provided for Alcova Reservoir (Area 5).

SPECIAL WINTER ICE FISHING PROVISION
The following method restrictions apply for waters covered by the Special Winter Ice Fishing Provision.

- The use of more than two (2) lines is permitted only during the ice covered period, and only when the angler is fishing through the ice, on waters listed below as being included under the Special Winter Ice Fishing Provision.
- No person shall use more than six (6) lines at any time to fish.
- When using more than two (2) lines, the angler’s name shall be attached to each line, pole or tip-up; the angler shall be no more than three hundred (300) yards from all lines; and, the angler shall check his/her own lines.

The following waters are included under the Special Winter Ice Fishing Provision:

- Alcova Reservoir in Natrona County
- Big Horn Lake in Big Horn County
- Big Sandy Reservoir in Sweetwater County
- Boulder Lake in Sublette County
- Boysen Reservoir in Fremont County
- Deaver Reservoir in Park County
- Flaming Gorge Reservoir in Sweetwater County
- Fontenelle Reservoir in Lincoln County
- Glendo Reservoir in Platte County
- Goldeneye Reservoir in Natrona County
- Gray Reef Reservoir in Natrona County
- Grayrocks Reservoir in Platte County
- Guernsey Reservoir in Platte County
- Harrington Reservoir in Big Horn County
- Keyhole Reservoir in Crook County
- Kortes Reservoir in Carbon County
- Lake DeSmet in Johnson County
- Lake Hattie in Albany County
- Ocean Lake in Fremont County
- Pathfinder Reservoir in Carbon and Natrona Counties
- Pilot Butte Reservoir in Fremont County
- Seminole Reservoir in Carbon County
Fishing contests held on waters of the state shall be approved and authorized in writing by the Department. No person shall conduct a fishing contest without first obtaining a fishing contest permit. The permittee shall adhere to all requirements and stipulations provided on the fishing contest permit.

Applications
Anyone desiring to hold a fishing contest shall submit an application for a fishing contest permit on a form provided by the Department. Fishing contest applications may be submitted one (1) year (365 days) prior to the start of the fishing contest, but shall be submitted at least thirty (30) days prior to the start of the fishing contest.

Live Release Fishing Contests
No person shall release live fish in a fishing contest without a fishing contest permit authorizing live release.

Reasons for Denying Fishing Contest Permits
The Department may deny an application if information is falsified on the application, or if the application is incomplete or incorrectly filled out. Fishing contest permits shall not be issued if the Department determines the fishing contest does not comply with Wyoming Statutes, Commission regulations, shall be harmful to the fisheries resource, or that public use facilities such as boat ramps, parking areas, campgrounds, and related facilities are inadequate to support the contest. Failure to comply with the requirements of the fishing contest permit is a violation of Commission regulations and may result in denial of future fishing contest permits.

Post-Fishing Contest Report Required
Within thirty (30) days after completion of the fishing contest, the permittee shall submit a legible, complete and accurate written report to the Department on a form provided by the Department. Failure to submit this report may result in denial of future fishing contest permits.

Fishing Contest-free Period
The following restrictions apply for waters covered by the “Special Fishing Contest Provision.”

Waters included under the “Special Fishing Contest Provision” are listed with the regulations for those drainage areas in Area 5. The Department shall authorize fishing contests such that each water included in the “Special Fishing Contest Provision” has a period of at least two (2) weeks when fishing contests are not allowed. The specific dates when contests are not allowed are listed with the regulations for the drainage areas.
TRANSPORTATION OF LIVE FISH
No person shall transport live fish or live fish eggs from the water of capture, except as provided by Commission regulations or as authorized by the Department. This includes transporting live fish in the live well of a fishing boat that has been removed from the water.

TAGGING OR MARKING FISH
No person shall tag or mark fish and release them into the waters of the state without prior written approval from the Department.

CLOSURE OF FISH HOLDING FACILITIES
All fish rearing and retaining ponds used by the state including those located at state fish hatcheries, or any that may be constructed elsewhere, are closed to fishing throughout the calendar year. Temporary facilities at spawning station sites are closed to fishing during the time they are in use by the Department.

BAIT REGULATIONS
SEINING AND TRAPPING OF FISH
Seining and trapping licenses (hereafter referred to as seining license) for the purpose of taking baitfish may be obtained from Game and Fish Department Regional Offices or from the Cheyenne Headquarters. No person shall seine, net, trap or spear baitfish without first obtaining a valid seining license. A valid seining license is required when using a seine, net, trap or spear to take baitfish, even those that will be used as dead bait.

Any brook stickleback (*Culaea inconstans*) taken must be killed immediately and shall not be possessed or transported. No person shall have more than one (1) seining license each calendar year.

Seining or trapping and use of baitfish shall only be done as specified in regulations for each drainage area. Locations where baitfish may be obtained, possessed and used shall be specified on the seining license.

Legal gear for taking baitfish includes seines, traps, cast nets, umbrella nets and dip nets. There are no restrictions on the size of mesh or net size for cast nets, umbrella nets or dip nets. Collection gear shall be hand operated.

Seines used for the purpose of taking baitfish shall not be more than five (5) feet deep.

Traps used for the purpose of taking baitfish shall not be more than thirty-six (36) inches long, twelve (12) inches deep, twelve (12) inches wide or twelve (12) inches in diameter and the throat shall not exceed one (1) inch width.

A seining license holder shall not use more than five (5) traps at a time.

A holder of both a seining license and live baitfish dealer’s license shall have no restriction on the number of traps that can be used.

The owner’s name and seining license number shall be attached to each trap while in use.

Any game fish taken by trap, net or seine shall be released to the water immediately.

Any live nongame fish captured for use as dead bait shall be killed immediately and shall not be transported live.

All wild caught live baitfish transported out of the water of

ILLEGAL FISH STOCKING IS A SERIOUS CRIME

Illegal fish introductions can destroy valuable sport fisheries and native fish populations. Penalties may include lifetime revocation of Wyoming hunting and fishing privileges, a fine up to $10,000, up to one year in jail, AND civil penalties in an amount not to exceed the costs incurred by the Department in removing the fish from the waters affected by the violation.

KNOW THE LAW...

- No fish shall be stocked in Wyoming waters without Department authorization.
- Any fish placed on a stringer, in a container, in a live well, or not released immediately to the water shall be considered reduced to the possession of the angler AND MUST BE KILLED PRIOR TO BEING TRANSPORTED FROM THE WATER OF ORIGIN.
- No fish that has been reduced to possession shall be released alive without prior written approval from the Department.
- Live baitfish shall not be transported by land in the live well of a watercraft.
- It is unlawful to release, abandon or allow to escape any unused baitfish or any fish that has been kept in an aquarium.

PLEASE REPORT ANYONE ILLLEGALLY TRANSPORTING LIVE FISH
capture shall be held in aquaria when not in use. Wild caught live baitfish confined to a holding facility in the same water from which the baitfish were captured are exempt from the aquaria holding requirement.

All holding facilities and aquaria shall have the owner's name and seining license number attached while in use.

Wild caught live baitfish may be held indefinitely by the holder of a valid, unexpired seining license, but shall not be released, abandoned or allowed to escape.

A seining license holder shall not sell live baitfish without first possessing a valid live baitfish dealer's license.

A seining license holder shall be allowed to give live baitfish to other anglers in his or her fishing party for use only when the seining license holder is present. All live baitfish shall be returned to the seining licensee while not in use, and shall remain in the wild caught live baitfish possession area listed on the seining license.

A seining license holder shall be allowed to give dead baitfish to other anglers for use as dead bait.

Seining licenses are subject to suspension or revocation for failure to comply with the seining and trapping conditions specified above or with the regulations for each drainage area.

Any revocation of a seining license other than a court hearing revocation shall be subject to contested case proceedings in accordance with Wyoming Game and Fish Commission Regulation Chapter 27, Rules Of Practice Governing Contested Cases Before The Wyoming Game and Fish Commission.

USE OF BAITFISH

The use or possession of live baitfish is prohibited throughout Areas 1 and 4 and on all waters in Areas 2, 3, and 5 except as otherwise provided on pages 23-33 which describe where live baitfish may be obtained, possessed and used.

The specific waters from which wild caught live baitfish may be seized, netted or trapped and used are listed on pages 23-33. Wild caught live baitfish shall not be transported out of the designated wild caught live baitfish possession area from which they were collected. This area shall be listed on the seining license, live baitfish dealer license or live baitfish receipt.

Commercially produced live baitfish may be transported and possessed throughout Areas 2, 3 and 5 (east of the continental divide) except where the use of live baitfish is prohibited. Use or possession of commercially produced live baitfish is prohibited on all waters except as otherwise provided on pages 23-33.

No person shall possess or transport brook stickleback in Wyoming.

Persons with live baitfish in possession shall produce, upon request from Department personnel, either a receipt from a licensed live baitfish dealer or a valid, unexpired seining license verifying origin of the live baitfish.

No live baitfish shall be transported into the state for use as live baitfish except as provided in the LIVE BAITFISH DEALERS section below.

All live baitfish shall be held in aquaria when not in transport or in use.

Containers may be used to transport legally obtained live baitfish or other wildlife by land, but shall not be part of a watercraft and shall be free of aquatic vegetation.

Live baitfish shall not be released, abandoned, or allowed to escape and must be killed when the receipt expires.

Dead baitfish may be used as bait. Restrictions on the use of dead baitfish are designated within the regulations for the specific drainage areas. Nongame fish taken by the use of legal fishing methods during any season open for the taking of game fish may be used as dead bait. Any live baitfish captured for use as dead bait shall be killed immediately and shall not be transported live.

LIVE BAITFISH DEALERS

Any person desiring to sell live baitfish shall apply for and receive a valid live baitfish dealer's license prior to selling live baitfish except holders of a valid Wyoming commercial fish hatchery license who may sell live baitfish to live baitfish dealers for resale. Application for a live baitfish dealer's license shall be made on forms provided by the Department. The applicant shall provide information including, but not limited to, the physical location of the business and a description of facilities to be used for holding fish.

Detailed regulations and information pertaining to live baitfish dealers is available online at https://wgfd.wyo.gov/Fishing-and-Boating/Forms-and-Applications

OTHER ANIMALS AS BAIT

All amphibians and reptiles may be taken throughout the calendar year for personal use without a permit, except the Columbia Spotted Frog, Wood Frog, Western (Boreal) Toad, Wyoming Toad, Northern Tree Lizard, Great Basin Gopher Snake, Midget Faded Rattlesnake, Black Hills Red-bellied Snake, Northern Rubber Boa, Pale Milksnake, Smooth Greensnake and Plains Box Turtle may not be taken. All amphibians and reptiles shall be confined at their final destination and shall not be released, abandoned or allowed to escape. Amphibians shall not be imported into the State for use as live fishing bait. Importation or possession of Wyoming Toad is prohibited.

All mollusks and crustaceans may be taken for personal use throughout the calendar year and shall only be used as live fishing bait in the water body from which they were captured. Live mollusks and crustaceans taken for person use shall be confined to aquaria at their final destination and shall not be released, abandoned or allowed to escape. Traps used to take mollusks and crustaceans shall have the owners name and address attached while in use. Importation or possession of live Asian Clam, New Zealand Mudsnail, Quagga Mussel, Rusty Crayfish or Zebra Mussel is prohibited.
The X-Stream Angler Program

Do you need an incentive to explore Wyoming’s fabulous trout fishing – to visit some of the most popular rivers or discover secluded mountain streams? Do you ever wonder where the state has obtained instream flow water rights that’ll sustain those fisheries for generations to come?

The X-Stream Angler program was developed to help anglers and others become more familiar with the many streams where instream flow water rights have been secured. The program is intended to increase your appreciation of the importance of instream flow rights for helping maintain our fisheries, economy, and high quality of life.

Fish in at least three instream flow segments, fill out the application form found at the instream flow web site shown below, attach a photo of each stream fished, and submit the application to be officially recognized as an X-Stream Angler.

To learn more about the fishery and instream flow recommendations for the streams that you can fish to qualify for becoming an X-Stream Angler, scan the QR code with your smartphone or go to http://wgfd.wyo.gov/InstreamFlow.
FISH CONSUMPTION ADVISORY

Most fish are good to eat and good for your health. Fish are high in protein and other nutrients, low in fat, and have omega-3 fatty acids needed for a healthy heart and brain development. Some fish contain high levels of mercury that pose human health risks. People, particularly children and some women, should avoid eating too many of those fish. At high levels, mercury can affect developing fetuses and the growing brains of children. To help you make the healthiest choices, the Wyoming Department of Health, in cooperation with the Wyoming Game and Fish Department, continues to update advisories and provide fish consumption guidelines as new mercury testing results become available. Women who are pregnant, who might become pregnant, nursing mothers and children under 15 should pay special attention to the mercury consumption guidelines below.

Women and young children will receive the health benefits of eating fish without undue exposure to the harmful effects of mercury by eating up to 2 meals per week (8 ounces per meal before cooking) of a variety of fish and shellfish that are low in mercury. Some commonly eaten fish that are low in mercury are rainbow trout, cutthroat trout, and kokanee caught in Wyoming and shrimp, canned light tuna, salmon, Pollock and catfish from stores and restaurants. The 2 meals per week include fish from all sources, and should be the total of Wyoming caught fish and fish purchased at stores and restaurants. Mercury contamination increases as fish get larger and older, so as a general rule, keep smaller Wyoming caught fish for eating.

Rainbow trout, cutthroat trout and kokanee salmon contain less mercury than species that prey primarily on other fish, such as walleye, brown trout, lake trout, catfish and burbot. Some Wyoming waters contain these and other species that have been found to be higher in mercury. Tighter consumption guidelines for what is okay to eat have been provided for some of these species in the waters listed below. Visit the Fish Consumption Advisory website below for detailed and up-to-date consumption guidelines and additional fish consumption information.

Specific waters by drainage area (see page 22) with consumption guidelines for some species and sizes of fish that are lower than 2 meals/week for some people.

Area 1: Jackson Lake, Palisades Reservoir, Salt River, Snake River
Area 2: Big Horn Lake, Boysen Reservoir, Buffalo Bill Reservoir, Lake Cameahwait, Deaver Reservoir, Ocean Lake, Wardell Reservoir
Area 3: Buffalo Wetlands, Healy Reservoir, Keyhole Reservoir, Lake DeSmet, LAK Reservoir, Muddy Guard Reservoir No. 1 and 2, South Tongue River, and Tie Hack Reservoir, Twin Lakes Reservoir
Area 4: Big Sandy Reservoir, Boulder Lake, Burnt Lake, Flaming Gorge Reservoir, Fontenelle Reservoir, Green River, Halfmoon Lake, High Savery Reservoir, Jim Bridger Pond, New Fork Lake, and Sulphur Creek Reservoir, Woodruff Narrows Reservoir
Area 5: Alcova, Crystal Reservoir, Glendo, Goldeneye, Grayrocks, Hawk Springs, Hog Park Reservoir, Laramie River, Pathfinder, Rob Roy and Seminoe reservoirs, Lake Hattie, North Twin Lake (Carbon County), Rock Lake and Sweetwater River

Visit the Fish Consumption Advisory website for more information.
wgfd.wyo.gov/Fishing-and-Boating/Fish-Consumption-Advice
**STREAM ACCESS AND TRESPASS**

Wyoming's trespass law states that a member of the public has the privilege to enter private land only with the explicit permission of the landowner.

It is legal to float through private land but it is the responsibility of the floater to know if the land is public or private. If you are floating through private land you must stay in your boat at all times unless permission has been obtained from the landowner.

State law only allows you to leave your craft for short portages around non-navigable obstacles. The streambed is the property of the landowner. Wading or anchoring without permission is trespassing.

Access to public lands for public use is only permitted if these lands are accessible by floating on a navigable water or if the lands are accessible from an existing public road or border other public lands that you can access without crossing private lands. If you are unsure, check with the land management agency responsible for the land in question (BLM, USFS, state of Wyoming, etc.).

Public land maps, available from the Bureau of Land Management, are excellent guides for avoiding a $420 trespassing ticket.

In all cases, respect the land, the landowner, and those who come after you by removing litter and minimizing evidence of your presence and the evidence of others who have not been so considerate.

Treat your access as a privilege goes a long way in gaining more access for fishing and hunting in Wyoming.

---

**RELEASING FISH IN SUMMER**

As water temperatures increase during summer months, using the proper techniques to catch and release fish become increasingly important to help insure the fish will survive. The Game and Fish asks anglers practicing catch and release, to consider the following:

- Fish early in the morning while the water temperature is cooler and carry a pocket thermometer to monitor the water temperature as the day warms.
- If the water temperature is at or above 65 degrees, consider keeping what you catch within the regulations. If the temperature is 70 degrees or higher, do not attempt to catch and release fish.
- Use flies and lures whenever many fish are being caught and released. Survival of released fish is five to ten times greater when using artificial rather than natural baits.
- Play and land fish as rapidly as possible to reduce exhaustion stress.
- Keep the fish in the water as much as possible, never keeping it out of water for more than 30 seconds.
- Do not squeeze the fish or place fingers in the gills.
- Remove hooks gently. Barbless hooks allow easier hook removal. If hooked deeply, cut the leader.
- If a fish is so exhausted it cannot hold itself upright, and if regulations allow, consider harvesting it because the fish has a poor chance of surviving.

---

**RECYCLE USED FISHING LINE**

Broken or discarded monofilament line can last for many hundreds of years and is extremely hazardous to ducks, herons, cranes, eagles, ospreys, kingfishers and other species of birds. Please pick up your used line and recycle it by sending it to Berkley Recycling, 1900 18th Street, Spirit Lake, Iowa 51360.

**GAME FISH SPECIES IDENTIFICATION**

**CUTTHROAT TROUT**
Black spotting is generally concentrated towards tail (except on the Snake River cutthroat which has a uniform distribution of fine black spots); few or no spots on head, red or orange slash under jaw; no white tips on fins.

**RAINBOW TROUT**
Distinguished from cutthroat by the presence of white tips on fins. Distinguished from kokanee by 11 anal fin rays versus 13 to 15 for kokanee. May have faint red or orange slash on lower jaw.

**BROWNSTOUT**
Distinguished from cutthroat and rainbow by the general lack of spots on the tail and the light colored "halos" around the dark spots. May have some red or orange spots. Distinguished from brook trout by dark spots on a light background versus light spots on a dark background for brook trout.

**KOKANEE SALMON**
Brilliant red during fall spawning, silvery the remainder of the year. Kokanee have 13 to 15 rays in the anal fin while rainbow trout have 9 to 11.

**BROOK TROUT**
Light spots on a dark background. Some red or pink spots with blue halos concentrated on lower half of body. Lower fins and tail have striking white border offset by black.

**SPLAKE**
Splake can exhibit identifiable characteristics of either brook or lake trout. The key characteristic to distinguish between splake and brook trout is the tail. Splake have a forked tail.

**IS IT A CUTTHROAT OR A RAINBOW?**
Check the fins. Rainbows and rainbow-cutthroat hybrids have white tips on fins. Native cutthroat do not. Hybrids (cuttbow) may or may not have a red or orange slash on the lower jaw, but always have white tips on fins.

**IS IT A BROOK TROUT OR A SPLAKE?**
Look closely at the tail. Brook trout have a square tail. The tail of a splake is forked.

**LAKE TROUT**
Light-colored spots on a dark background. Distinguished from brook trout by a deeply forked tail and absence of red or pink spots.

**MOUNTAIN WHITEFISH**
Distinguished from trout by larger scales; from grayling by the small, pointed mouth and smaller dorsal fin, and from suckers and chubs by the presence of the adipose fin.

**ILLUSTRATIONS**
Illustrations by Michelle LaGory. Splake Illustration by Joseph Tomelleri.
GRAYLING
Distinguished from trout by the coarse scales and large dorsal fin. Distinguished from whitefish by the larger dorsal fin, large mouth, and spots on the sides.

BURBOT
Slender and elongated body. Large, double dorsal fin that is scarcely separated from the anal and caudal fins producing an almost continuous median fin around the back half of the body.

CHANNEL CATFISH
No scales on body and large barbels near mouth. Often has black spots on sides. Distinguished from black bullhead by deeply forked tail.

BLACK BULLHEAD
No scales on dark colored body and large barbels near mouth. Distinguished from channel catfish by lack of deeply forked tail; from stonecat by the lack of a fleshy ridge connecting the adipose and tail fins.

SAUGER
Large, silvery eye, large sharp teeth and anterior dorsal fin with spines. Distinguished from walleye by black spots on dorsal fin and wider head.

WALLEYE
Large, silvery eye, large sharp teeth and anterior dorsal fin with spines. Distinguished from sauger by white marking on lower lobes of tail and anal fins, and black membranes between last two or three spines of first dorsal fin.

NORTHERN PIKE
Distinct snout shape similar to that of duck's bill.

TIGER MUSKIE
Coloration having irregular narrow vertical dark markings on a light background.

IS IT A SAUGER OR A WALLEYE?
Are there spots on the dorsal fin closest to the head? Sauger will have black spots. Walleye will not.

IS IT A NORTHERN PIKE OR TIGER MUSKIE?
Look at the markings on the side. Northern pike markings are horizontal. They are vertical on the tiger muskie.
LARGEMOUTH BASS
Body relatively slender. 3 anal fin spines. Dorsal spines usually 10. Distinguished from smallmouth bass by having larger mouth with upper jaw extending far behind middle of the eye and by having spiny and soft dorsal fins that are nearly separate.

SMALLMOUTH BASS
Body relatively slender. 3 anal fin spines. Dorsal spines usually 10. Distinguished from largemouth bass by having smaller mouth, not extending much behind back of eye and by having spiny and soft dorsal fins that are well connected.

YELLOW PERCH
Spiny and soft dorsal fins not connected. Back and sides crossed by several vertical bars that are regular in size and shape. Distinguished from walleye and sauger by lack of large prominent teeth and anal fin with 6-8 soft rays rather than 11-14.

BLUEGILL
Deep body with spiny and soft dorsal fins well connected. 2-3 anal fin spines. 10 dorsal spines. Spiny dorsal fin with a black blotch near base of last few rays. Dark “ear” flap on gill plate. Distinguished from green sunfish by smaller mouth not extending to middle of eye.

GREEN SUNFISH
Spiny and soft dorsal fins well connected. 2-3 anal fin spines. 10 dorsal spines. Dark ear flap on gill plate. Distinguished from bluegill by larger mouth with jaw extending to middle of eye.

ROCK BASS
Spiny and soft dorsal fins well connected with 12 dorsal fin spines. Parallel lines of blackish spots on sides. Distinguished from green sunfish by having 6 anal fin spines rather than 3.

Fish Hatchery Information
The Wyoming Game and Fish Department currently maintains ten fish hatcheries and rearing stations. These facilities are an integral part of our efforts to provide quality fishing and restore native species. The hatcheries are located throughout the state, some in remote locations. They manage complex operations that include water quality enhancement, genetic selection, detailed production plans and disease prevention in order to raise quality trout, salmon, grayling and tiger muskie for stocking throughout the state. The Department does not have hatcheries to rear coolwater or warmwater fish such as walleye, bass, catfish and bluegill. These species are obtained for stocking in Wyoming by trading trout or trout eggs with other state wildlife agencies. Walleye and bass typically come from North Dakota while bluegill might come from Oklahoma and catfish from Arkansas. Find out more at https://wgfd.wyo.gov/Fishing-and-Boating/Fish-Hatchery-Information.
CUTT-SLAM CHALLENGE

The Rules

The Wyoming Cutt-Slam program encourages anglers to learn more about Wyoming’s cutthroat trout subspecies and develop more appreciation and support of the Wyoming Game and Fish Department’s cutthroat trout management programs.

To participate you must catch Wyoming’s four cutthroat trout subspecies in their native range in Wyoming. Send us a clear photo with information on the date and location of catch.

We will have a Wyoming Game and Fish fisheries biologist verify species identification. Once we’ve verified your catch of all four subspecies, you will receive a color certificate featuring all four subspecies to recognize your accomplishment. Look for our Cutt-Slam web page at wgfd.wyo.gov/Fishing-and-Boating/Cutt-Slam or check with your local Game and Fish office for more information.

The Cutthroat Trout Cuttslam

Yellowstone Cutthroat

Colorado River Cutthroat

Snake River Cutthroat

Bonneville Cutthroat

IS IT A CUTTHROAT OR A RAINBOW?

Cutthroat trout are native to the intermountain west including Wyoming. There are 5 subspecies of cutthroat trout native to Wyoming, including Westslope cutthroat trout in portions of Yellowstone National Park (more subspecies than any other state).

Cutthroat trout populations are reduced from historic levels for a variety of reasons. Overharvest by anglers can contribute to the problem. The cutthroat trout creel limit has been reduced to conserve populations in their native habitats.

Cutthroat trout have a variety of spotting patterns. They readily hybridize with rainbow trout, which further complicates identification. The easiest way to tell them apart is by examining the anal and paired pelvic fins. Rainbow trout and hybrids will have white tips on these fins. Pure cutthroat trout never have white tipped fins.

YELLOWSTONE NATIONAL PARK, WIND RIVER INDIAN RESERVATION, AND WINTER CLOSURES INFORMATION

FISHING REGULATIONS FOR YELLOWSTONE NATIONAL PARK
A Yellowstone National Park fishing permit is required for fishing in Yellowstone National Park (state fishing license NOT REQUIRED). It is recommended that detailed information on fishing regulations pertaining to Yellowstone National Park be secured from: Park Headquarters, PO Box 168, Yellowstone National Park, WY, 82190. Or call: (307) 344-2107.

WIND RIVER INDIAN RESERVATION
A Wind River Indian Reservation fishing permit is required (state fishing license NOT REQUIRED). For fishing information in those areas administered by the Wind River Indian Reservation, write: Wind River Indian Reservation, PO Box 217, Fort Washakie, WY 82514. Or call: (307) 332-7207.

WINTER CLOSURES
Some waters that are open to fishing are not accessible due to other land use restrictions. The Wyoming Game and Fish Department and US Forest Service have seasonal closures to protect wintering big game herds. Be sure to check with the appropriate land management agency (BLM, USFS, state of Wyoming, etc.) before planning a winter trip.
Area 1 means the Snake River, Salt River, Greys River, Hoback River, Gros Ventre River and Buffalo Fork River drainages and all drainages west of the Teton and Snake River Ranges.

Fishing is permitted as described on pages 5-10 except as otherwise specified in this section:

1. **Grand Teton National Park.**
   - All lakes within Grand Teton National Park in Teton County.
     - The creel limit on trout shall be six (6) per day or in possession. No more than three (3) shall be cutthroat trout; and, no more than one (1) cutthroat trout shall exceed twelve (12) inches.
   - All streams and Blacktail Spring Ponds within Grand Teton National Park below Jackson Lake Dam, excluding Buffalo Fork River, Pacific Creek, Gros Ventre River and Snake River in Teton County.
     - Closed to fishing December 1 through July 31.
     - Fishing is permitted by the use of artificial flies and lures only.
   - All waters in Grand Teton National Park in Teton County.
     - Use of personal watercraft is prohibited.
   - All waters in Grand Teton National Park, excluding Jackson and Jenny lakes, in Teton County.
     - The use of motorized watercraft is prohibited.
   - **Other Grand Teton National Park information.**
     - Fishing is permitted in Grand Teton National Park in conformance with laws and regulations of the Commission, the state of Wyoming and the regulations of the National Park Service.
     - The use or possession of fish, fish eggs (real or artificial) or fish parts for bait is prohibited in all waters within Grand Teton National Park, except that it shall be permissible to possess or use the following dead, nongame fish on or along the shores of Jackson Lake: redside shiner, speckled dace, longnose dace, Paiute sculpin, mottled sculpin, Utah chub, and Utah sucker.
     - Please refer to Grand Teton National Park Regulations.
     - The following fishless lakes are closed to fishing throughout the calendar year: Christian Ponds, Hedrick Pond, Moose Pond, Sawmill Pond, and Swan Lake.
     - The use of archery equipment and spearguns is prohibited in all waters in Grand Teton National Park.

2. **Flat Creek on the National Elk Refuge from the McBride Bridge downstream to the posted boundary in Teton County.**
   - Closed to fishing from November 1 through July 31.
   - The creel limit on trout shall be six (6) per day or in possession. No more than one (1) shall be cutthroat trout; and, all cutthroat trout less than twenty (20) inches shall be released to the water immediately.
   - Fishing is permitted by the use of artificial flies only.
   - National Elk Refuge regulations restrict fishing access to daylight hours only.

3. **Flat Creek from the posted boundary on the National Elk Refuge downstream to the west boundary of the National Elk Refuge in Teton County.**
   - Closed to fishing throughout the calendar year.

4. **Greys River proper from Corral Creek downstream to the Murphy Creek Bridge in Lincoln County.**
   - Fishing is permitted by the use of artificial flies and lures only.

---

*Burbot and northern pike not currently known to occur in Area 1. Please promptly report any captured fish to Area 1 office (see page 22)*
5. Gros Ventre River from the eastern boundary of the National Elk Refuge downstream to the U.S. Highway 26/89/191 Bridge in Teton County. 
   National Elk Refuge regulations prohibit fishing from December 1 through March 31.

   Closed to fishing from October 1 through October 31.

   Motorized watercraft in excess of ten (10) horsepower prohibited.

8. Lake of the Woods in Fremont County. 
   Use of internal combustion engines is prohibited.

9. Nowlin Creek on the National Elk Refuge above “Closed Area” signs in Teton County. 
   Closed to fishing throughout the calendar year.

10. Nowlin Creek on the National Elk Refuge from “Closed Area” signs downstream to its confluence with Flat Creek in Teton County. 
    Closed to fishing from November 1 through July 31. 
    The creel limit on trout shall be six (6) per day or in possession. 
    No more than one (1) shall be a cutthroat trout; and, all cutthroat trout less than twenty (20) inches shall be released to the water immediately. 
    Fishing is permitted by the use of artificial flies only. 
    National Elk Refuge regulations restrict fishing access to daylight hours only.

11. Pacific Creek downstream from the wilderness boundary to the confluence with the Snake River in Teton County. 
    Fishing is permitted by the use of artificial flies and lures only.

12. Salt River drainage upstream from the Upper Narrows Bridge (Wyoming Highway 238) in Lincoln County. 
    All trout shall be released to the water immediately from November 1 through December 31. 
    Fishing is permitted by the use of artificial flies and lures only from November 1 through December 31.

13. Salt River from one quarter (¼) mile below the Highway 238 Bridge downstream to the Diversion (Murray) Fishing Access as posted in Lincoln County. 
    Fishing is permitted by the use of artificial flies and lures only.

14. Snake River proper from Yellowstone National Park boundary downstream to Jackson Lake in Teton County. 
    All cutthroat trout shall be released to the water immediately from November 1 through March 31.

15. Snake River proper for a distance of one hundred fifty (150) feet below the downstream face of Jackson Lake dam, Grand Teton National Park in Teton County. 
    Closed to fishing throughout the calendar year.

16. Snake River proper from one hundred fifty (150) feet below Jackson Lake dam downstream to the gauging station one thousand (1,000) feet below Jackson Lake dam in Teton County. 
    All cutthroat trout shall be released to the water immediately from November 1 through March 31. 
    The use or possession of fish, parts thereof, or fish eggs for bait is prohibited. Refer to Grand Teton National Park fishing regulations.

17. Snake River proper from one thousand (1,000) feet below Jackson Lake dam (at gauging station) downstream to the Wyoming Highway 22 Bridge (Wilson Bridge) in Teton County. 
    All cutthroat trout shall be released to the water immediately from November 1 through March 31. 
    Fishing is permitted by the use of artificial flies and lures only.

18. Snake River from Grand Teton National Park boundary in Teton County to the Sheep Gulch boat ramp in Lincoln County. 
    Use of personal watercraft is prohibited. 
    Use of motorized watercraft is prohibited, except motorized watercraft, other than personal watercraft, powered by a single motor not to exceed one hundred fifteen (115) horsepower are allowed from South Park Bridge (U.S. Highway 26/89/191) to West Table boat ramp from the day after Labor Day through March 31st.

19. Snake River proper from Wyoming Highway 22 Bridge (Wilson Bridge) downstream to Palisades Reservoir in Lincoln and Teton counties. 
    All cutthroat trout shall be released to the water immediately from November 1 through March 31.

20. Soda Lake in the Gros Ventre River drainage in Teton County. 
    The creel limit on trout shall be one (1) per day or in possession. 
    All trout less than twenty (20) inches shall be released to the water immediately. 
    Fishing is permitted by the use of artificial flies and lures only.

OTHER AREA 1 REGULATIONS

Area 1 Live Baitfish
Area 1 Live Baitfish. The use or possession of live baitfish in Area 1 is prohibited except that licensed live baitfish dealers may possess live baitfish native to the drainage until the time of sale. Holders of valid seining licenses may only seize, net, trap or spear baitfish native to the drainage for use as dead bait in Area 1, excluding the waters within Grand Teton National Park (see Jackson Lake exception above under “Other Grand Teton National Park Information”). Any baitfish captured, except those to be held by licensed live baitfish dealers, shall be killed immediately. Baitfish permissible for use as dead bait in the Snake River drainage are redside shiner, speckled dace, longnose dace, Paiute sculpin, mottled sculpin, Utah chub, and Utah sucker.

Palisades Reservoir
The boundaries of Palisades Reservoir shall be the confluence of the Snake and Greys rivers and McCoy Creek Bridge on the Salt River arm.
AREA 2 EXCEPTIONS TO STATEWIDE REGULATIONS

Area 2 means the Wind River, Bighorn River, Shoshone River, Clarks Fork and Yellowstone River drainages. Fishing is permitted as described on pages 5-10 except as otherwise specified in this section:

<table>
<thead>
<tr>
<th>Category</th>
<th>General Daily Creel &amp; Possession Limits</th>
</tr>
</thead>
</table>
| Trout in combination (includes brown, cutthroat, grayling, golden, rainbow, salmon, splake, tiger trout, and other trout hybrids). Excludes brook trout and lake trout. | All lakes within Area 2, unless indicated otherwise: six (6)  
All streams within Area 2, unless indicated otherwise: Three (3) No more than one (1) trout shall exceed sixteen (16) inches; and, no more than one (1) cutthroat trout shall exceed twelve (12) inches.                                      |
| Northern pike                                  | Nongame fish, unlimited harvest. Must be killed immediately.                                             |

1. Beck Lake Recreation Area including Beck Lake, New Cody Reservoir and Markham Reservoir in Park County
Use of internal combustion engines is prohibited.

2. Big Horn Lake downstream from the causeway (Highway 14A) in Big Horn County.
The creel limits are as follows:
- Trout - five (5) fish per day, ten (10) fish in possession;
- Bass - ten (10) fish per day, twenty (20) in possession;
- Walleye and sauger - six (6) fish per day no more than three (3) shall be sauger, twelve (12) fish in possession, no more than three (3) shall be sauger. All walleye and sauger must be kept whole (gills and entrails may be removed) until the angler is off the water or ice and done fishing for the day;
- Channel catfish - six (6) fish per day or in possession;
- Burbot (ling) - three (3) fish per day or in possession;
- Shovelnose sturgeon – two (2) fish per day or in possession; and,
- Other game species - no limit.

3. Bighorn and Wind River drainage lakes and streams in Area 2 in Big Horn, Fremont, Hot Springs, Park and Washakie counties.
All walleye and sauger shall be kept whole (gills and entrails may be removed) until the angler is off the water or ice and done fishing for the day. Once off the water or ice and done fishing for the day, walleye and sauger can be filleted for transportation and storage. A piece of skin large enough to allow species identification (at least one (1) inch square) shall remain on all fish fillets while in transit or in the field.

4. Buffalo Bill Reservoir, excluding South Fork and Diamond Creek Dike Ponds in Park County.
That portion lying west of a straight line connecting the mouths of Rattlesnake Creek and Sheep Creek (commonly known as Spring Creek) up the drainage to Gibbs Bridge is closed to fishing from April 1 through July 14.
The creel limit on trout (excluding lake trout) shall be three (3) per day or in possession. No more than two (2) shall be cutthroat trout; and, no more than one (1) trout (excluding lake trout) shall exceed eighteen (18) inches.
Walleye are designated as nongame fish. All walleye caught shall be killed immediately.

5. Clarks Fork River from the Wyoming/Montana state line downstream to the Shoshone National Forest Boundary (at mouth of Clarks Fork River Canyon) in Park County.
Fishing is permitted by the use of artificial flies and lures only.

6. Deaver Reservoir in Park County.
The creel limit of walleye shall be three (3) per day or in possession.
Motorized watercraft in excess of fifteen (15) horsepower prohibited.

7. East Fork of the Wind River drainage streams upstream from the confluence with the Wind River, including Bear Creek and Wiggins Fork, in Fremont County.
The creel limit on trout shall be three (3) per day or in possession. No more than one (1) trout shall exceed sixteen (16) inches. All cutthroat trout shall be released to the water immediately.
Fishing is permitted by the use of artificial flies and lures only.

8. East Newton Lake in Park County.
All trout, including brook trout, shall be released to the water immediately.
Fishing is permitted by the use of artificial flies and lures only.
Motorized watercraft in excess of fifteen (15) horsepower prohibited.

9. Fiddlers Lake in Fremont County.
Use of internal combustion engines is prohibited.

10. Fish Lake in Fremont County.
The creel limit on trout shall be three (3) per day or in possession.
No more than one (1) trout shall exceed sixteen (16) inches.
Use of internal combustion engines is prohibited.

11. Grace Lake in Big Horn County.
The creel limit on brook trout shall be two (2) per day or in possession.
Fishing is permitted by the use of artificial flies and lures only.

12. Harrington Reservoir in Big Horn County.
Motorized watercraft in excess of fifteen (15) horsepower prohibited.

13. Lake Cameahwait (Bass Lake) in Fremont County.
The creel limit on largemouth bass shall be two (2) per day or in possession. All bass between ten (10) and fifteen (15) inches (inclusive) shall be released to the water immediately; and, no more than one (1) bass shall exceed fifteen (15) inches.
14. Lily Lake in Park County.  
Motorized watercraft in excess of fifteen (15) horsepower prohibited.

15. Little Moose Lake in Park County.  
The creel limit on trout shall be two (2) per day or in possession.  
Fishing is permitted by the use of artificial flies and lures only.

16. Luce Reservoir in Park County.  
All trout shall be released to the water immediately.  
Fishing is permitted by the use of artificial flies and lures only.

17. Luckey Pond (Chittim Reservoir) in Fremont County.  
Closed to ice fishing.  Use of internal combustion engines is prohibited.

18. Middle Depression Reservoir in Fremont County.  
The creel limit on trout shall be three (3) per day or in possession.  
No more than one (1) trout shall exceed sixteen (16) inches.

19. Middle Fork of the Popo Agie River from the “Rise” downstream to the Bridge on the Sinks Canyon Road in Fremont County.  
Closed to fishing throughout the calendar year.

20. North Fork of the Shoshone River drainage from Newton Creek downstream to Gibbs Bridge (including Newton Creek) in Park County.  
Closed to fishing from April 1 through June 30.

The creel limit on trout shall be three (3) per day, or in possession.  
No more than two (2) shall be cutthroat trout; and, no more than one (1) trout shall exceed eighteen (18) inches.

22. Nowood River drainage streams upstream from the confluence with the Bighorn River including Paintrock and Tensleep Creeks in Big Horn, Johnson, and Washakie counties.  
The creel limit on trout shall be six (6) per day, or in possession.

23. Pelham Lake in Fremont County.  
The creel limit on trout shall be two (2) per day or in possession.  
All trout less than sixteen (16) inches shall be released to the water immediately.  
Fishing is permitted by the use of artificial flies and lures only.  
Use of internal combustion engines is prohibited.

24. Renner Reservoir in Big Horn County.  
The creel limit on largemouth bass shall be six (6) per day or in possession.  
No more than one (1) bass shall exceed twelve (12) inches.  
Motorized watercraft in excess of fifteen (15) horsepower prohibited.

25. Shell Creek drainage streams upstream from the confluence with the Bighorn River in Big Horn County.  
The creel limit on trout shall be six (6) per day, or in possession.

26. Sand Mesa Reservoirs No. 1 and 2 in Fremont County.  
Use of internal combustion engines is prohibited.

27. Shoshone Lake and Shoshone Creek in Fremont County.  
Closed to fishing from September 1 through June 14.  
The creel limit on brook trout shall be six (6) per day or in possession.

28. Shoshone River drainage streams from Buffalo Bill Dam downstream to Big Horn Lake in Big Horn and Park counties.  
The creel limit on trout shall be six (6) per day or in possession.  
No more than one (1) trout shall exceed sixteen (16) inches.

29. South Worland Pond (also known as Golf Course Pond) in Washakie County.  
Use of motorized watercraft is prohibited.

30. Swamp Lake in Park County.  
The creel limit on brook trout shall be two (2) per day or in possession.  
Fishing is permitted by the use of artificial flies and lures only.  
Use of internal combustion engines is prohibited.

31. Upper Brooks Lake in Fremont County.  
The creel limit on game fish shall be six (6) per day or in possession.  
No more than two (2) game fish shall exceed twelve (12) inches.

32. West Newton Lake in Park County.  
Motorized watercraft in excess of fifteen (15) horsepower prohibited.

33. West Ten Sleep Lake in Big Horn County.  
Use of motorized watercraft is prohibited.

34. Wind River Lake in Fremont County.  
Use of internal combustion engines is prohibited.

OTHER AREA 2 REGULATIONS

Area 2 Live Baitfish

The use or possession of live baitfish in Area 2 is prohibited except as otherwise specified in this Section.

Area 2 Live Baitfish Location A

Live baitfish may be used for bait in the waters listed in subsection (i) provided the baitfish are obtained from a licensed live baitfish dealer authorized to sell baitfish for use in these waters or the baitfish were seized or trapped from the waters listed in subsection (ii).  Live baitfish restricted to use in location A shall not be transported out of the designated wild caught live baitfish possession area defined in subsection (iii).

(i) Fathead minnows and lake chubs are the only live baitfish species that may be used in the following waters: Torrey Lake; Ring Lake; and, Trail Lake.

(ii) A holder of a valid seining license may seine, net or trap fathead minnows, or lake chubs from the Wind River drainage upstream from the western boundary of the Wind River Indian Reservation excluding Torrey, Ring and Trail lakes.  All other baitfish captured shall be killed immediately for use as dead bait or released to the water immediately.

(iii) The designated wild caught live baitfish possession area for location A is the Wind River drainage upstream from the western boundary of the Wind River Reservation.

Area 2 Live Baitfish Location B

Live baitfish may be used for bait in the waters listed in subsection (i) provided the baitfish are obtained from a licensed live baitfish dealer authorized to sell baitfish for use in these waters or the baitfish were seized or trapped from the waters listed below in subsection (ii).  Live baitfish restricted to use in location B shall not be transported out of the designated wild caught live baitfish possession area defined in subsection (iii).

(i) Live baitfish may be used in the following waters: Wardell Reservoir; Big Horn Lake; Bighorn River; Deaver Reservoir; Harrington Reservoir; Shoshone River downstream from Penrose Dam; Wind River downstream from Boysen Reservoir; Boysen Reservoir; Ocean Lake; and, Pilot Butte Reservoir.

(ii) A holder of a valid seining license may seine, net, trap or spear baitfish from the following waters: Wind River and Bighorn River drainages downstream from the western boundary of the Wind River Reservation.

(iii) The designated wild caught live baitfish possession area for location B is the Wind River and Bighorn River drainages downstream from the western boundary of the Wind River Reservation.
AREA 3 EXCEPTIONS TO STATEWIDE REGULATIONS

Area 3 means the Niobrara River, Cheyenne River, Stockade-Beaver Creek, Sand Creek, Belle Fourche River, Little Missouri River, Little Powder River, Powder River, Tongue River, and Little Bighorn River drainages. Fishing is permitted as described on pages 5-10 except as otherwise specified in this section:

### Category | General Daily Creel & Possession Limits
--- | ---
Trout in combination (includes brown, cutthroat, grayling, golden, rainbow, salmon, splake, tiger trout, and other trout hybrids). Excludes brook trout and lake trout. | All lakes within Area 3, unless indicated otherwise: six (6)
All streams within Area 3, unless indicated otherwise: six (6)
TOTAL STREAMS AND LAKE COMBINED: six (6)
Northern pike | All waters within Area 3, with the exception of waters within Keyhole State Park: Nongame fish, unlimited harvest. Must be killed immediately.

1. Black Elk Pond in Weston County.
   Watercraft prohibited.

2. Black Hills Power and Light Osage Pond in Weston County.
   Use of internal combustion engines is prohibited.

   All trout (except brook trout) shall be released to the water immediately.
   Fishing is permitted by the use of artificial flies and lures only.

4. Burlington Reservoir in Natrona County.
   Use of internal combustion engines is prohibited.

5. Cook Lake in Crook County.
   Use of internal combustion engines is prohibited.

6. Gillette Fishing Lake in Campbell County.
   Use of internal combustion engines is prohibited.

7. Healy Reservoir in Johnson County.
   Motorized watercraft in excess of fifteen (15) horsepower prohibited.

8. Keyhole Reservoir, all waters within the boundaries of Keyhole State Park in Crook County.
   The creel limit on northern pike shall be three (3) per day or in possession.
   All northern pike less than thirty (30) inches in length shall be released to the water immediately.

   Use of internal combustion engines is prohibited.

10. Middle Fork of Powder River, from Bachaus Creek downstream to the Bar C Road (Johnson County Road 238) on the Bar C Ranch in Johnson County.
   The creel limit on trout shall be three (3) per day or in possession.
   No more than one (1) trout shall exceed sixteen (16) inches.

11. Muddy Guard Reservoir No. 1 in Johnson County.
   The creel limit on trout shall be one (1) per day or in possession.
   All trout less than twenty (20) inches shall be released to the water immediately.
   Fishing is permitted by the use of artificial flies and lures only.

12. Muddy Guard Reservoirs in Johnson County.
   Motorized watercraft in excess of fifteen (15) horsepower prohibited.

13. North Tongue River drainage upstream from the Mouth of Bull Creek in Sheridan County.
   All trout (except brook trout) shall be released to the water immediately.
   Fishing is permitted by the use of artificial flies and lures only.

14. Park Reservoir in Johnson and Sheridan counties.
   Motorized watercraft in excess of fifteen (15) horsepower prohibited.

15. Ranchester City Reservoir in Sheridan County.
   Watercraft prohibited.

16. Sand Creek, from the forest service boundary above Ranch “A” downstream to Interstate 90 in Crook County.
   The creel limit on brown trout is twelve (12) per day or in possession.
   All other trout shall be released to the water immediately; and, no more than one (1) brown trout shall exceed twelve (12) inches.
   Fishing is permitted by the use of artificial flies and lures only on the Ranch “A” Public Fishing Area.

17. Sibley Lake in Sheridan County.
   Use of internal combustion engines is prohibited.

18. Tongue River drainage lakes and streams in Area 3 in Johnson and Sheridan counties.
   All walleye and sauger shall be kept whole (gills and entrails may be removed) until the angler is off the water or ice and done fishing for the day. Once off the water or ice and done fishing for the day, walleye and sauger can be filleted for transportation and storage.
   A piece of skin large enough to allow species identification (at least one (1) inch square) shall remain on all fish fillets while in transit or in the field.

19. Tie Hack Reservoir in Johnson County.
   Use of internal combustion engines is prohibited.
OTHER AREA 3 REGULATIONS

Area 3 Live Baitfish
The use or possession of live baitfish in Area 3 is prohibited except as otherwise specified in this section:

Area 3 Live Baitfish Location A
Live baitfish may be used for bait in the waters listed in subsection (i) provided the baitfish are obtained from a licensed live baitfish dealer authorized to sell baitfish for use in these waters or the baitfish were seized or trapped from the waters listed below in subsection (ii). Live baitfish restricted to use in location A shall not be transported out of the designated wild caught live baitfish possession area defined in subsection (iii).

(i) Live baitfish may be used in the following waters: Keyhole Reservoir; Belle Fourche River proper.

(ii) Commercially produced live baitfish may be used in the following waters: Flaming Gorge Reservoir in Sweetwater County; Bear River drainage streams including Smiths Fork and Salt Creek (also called Thomas Fork) drainages, unless indicated otherwise, in Lincoln and Uinta counties.

Area 3 Live Baitfish Location B
Live baitfish may be used for bait in the waters listed in subsection (i), provided the baitfish are obtained from a licensed live baitfish dealer authorized to sell commercially produced live baitfish as described in this section.

(i) Commercially produced live baitfish may be used in the following waters: Lake DeSmet in Johnson County; Healy Reservoir in Johnson County; and, LAK Reservoir in Weston County.

OTHER AREA 3 REGULATIONS

Area 3 Live Baitfish
The use or possession of live baitfish in Area 3 is prohibited except as otherwise specified in this section:

Area 3 Live Baitfish Location A
Live baitfish may be used for bait in the waters listed in subsection (i) provided the baitfish are obtained from a licensed live baitfish dealer authorized to sell baitfish for use in these waters or the baitfish were seized or trapped from the waters listed below in subsection (ii). Live baitfish restricted to use in location A shall not be transported out of the designated wild caught live baitfish possession area defined in subsection (iii).

(i) Live baitfish may be used in the following waters: Keyhole Reservoir; and, Belle Fourche River proper.

(ii) Commercially produced live baitfish may be used in the following waters: Flaming Gorge Reservoir in Sweetwater County.

Area 3 Live Baitfish Location B
Live baitfish may be used for bait in the waters listed in subsection (i), provided the baitfish are obtained from a licensed live baitfish dealer authorized to sell commercially produced live baitfish as described in this section.

(i) Commercially produced live baitfish may be used in the following waters: Lake DeSmet in Johnson County; Healy Reservoir in Johnson County; and, LAK Reservoir in Weston County.

OTHER AREA 3 REGULATIONS

Area 3 Live Baitfish
The use or possession of live baitfish in Area 3 is prohibited except as otherwise specified in this section:

Area 3 Live Baitfish Location A
Live baitfish may be used for bait in the waters listed in subsection (i) provided the baitfish are obtained from a licensed live baitfish dealer authorized to sell baitfish for use in these waters or the baitfish were seized or trapped from the waters listed below in subsection (ii). Area 3 Live Baitfish Location B
Live baitfish may be used for bait in the waters listed in subsection (i), provided the baitfish are obtained from a licensed live baitfish dealer authorized to sell commercially produced live baitfish as described in this section.

(i) Commercially produced live baitfish may be used in the following waters: Lake DeSmet in Johnson County; Healy Reservoir in Johnson County; and, LAK Reservoir in Weston County.
12. Green River from the Sweetwater County Road 8 Bridge, 4.5 miles below Fontenelle Dam, downstream to the Big Sandy River in Sweetwater County.
The creel limit on trout shall be one (1) per day or in possession. All trout less than twenty (20) inches shall be released to the water immediately. Fishing is permitted by the use of artificial flies and lures only.

Use of personal watercraft is prohibited.

14. Halfmoon Lake in Sublette County.
The creel limit on lake trout shall be two (2) per day or in possession. No more than one (1) lake trout shall exceed twenty-four (24) inches.

15. Ham’s Fork River from Viva Naughton Reservoir downstream to Kemmerer City Reservoir in Lincoln County.
Fishing is permitted by the use of artificial flies and lures only.

16. High Savery Reservoir in Carbon County.
The North Fork Savery Creek inflow from the concrete fish trap (dam) downstream to the reservoir is closed to fishing from September 1 to September 30.

17. Jim Bridger Pond in Sweetwater County.
Closed to ice fishing. Watercraft prohibited inside that area inside the pumphouse booms. Motorized watercraft in excess of fifteen (15) horsepower prohibited.

18. Kemmerer City Reservoir in Lincoln County.
The creel limit on trout shall be three (3) per day or in possession. No more than one (1) trout shall exceed sixteen (16) inches. Fishing is permitted by the use of artificial flies and lures only. Use of motorized watercraft is prohibited.

19. Kendall Warm Springs and Kendall Warm Springs Creek in Sublette County.
Closed to fishing throughout the calendar year.

20. LaBarge Creek, five hundred (500) feet downstream of the fish migration barrier located between Big Fall Creek and Turkey Creek on the Bridger-Teton National Forest in Lincoln County.
Closed to fishing throughout the calendar year.

21. Lake Alice in Lincoln County.
The creel limit on trout shall be six (6) per day or in possession. No more than two (2) cutthroat trout shall exceed twelve (12) inches. Fishing is permitted by the use of artificial flies and lures only. Use of internal combustion engines is prohibited.

22. Little Soda Lake in Sublette County.
Use of internal combustion engines is prohibited.

23. Meadow Creek in Sublette County.
Closed to fishing from April 1 through June 30.

24. Meadow Lake in Sublette County.
The entire lake is closed to fishing from November 15 through April 30. The portion east of the Game and Fish Department markers shall be closed to fishing from May 1 through June 30.

25. Middle Piney Lake in Sublette County.
Use of internal combustion engines is prohibited.

Closed to ice fishing. The creel limit on trout shall be two (2) per day or in possession. Use of internal combustion engines is prohibited.

27. New Fork Lakes in Sublette County.
Use of personal watercraft is prohibited.

Closed to fishing from September 1 through April 30.
29. New Fork River from the Mesa Road Bridge (Sublette County Road 23-123) downstream to the confluence with the East Fork River in Sublette County.
Fishing is permitted by the use of artificial flies and lures only.

30. North Cottonwood Creek drainage (including Maki Creek) on the Bridger-Teton National Forest upstream from the forest boundary in Sublette County.
Fishing is permitted by the use of artificial flies and lures only.

31. North Horse Creek and Lead Creek drainage on the Bridger-Teton National Forest upstream from the forest boundary in Sublette County.
Fishing is permitted by the use of artificial flies and lures only.

32. North Piney Creek drainage on the Bridger-Teton National Forest upstream from the forest boundary in Sublette County.
Fishing is permitted by the use of artificial flies and lures only.

33. North Piney Lake and upstream tributaries in Sublette County.
Closed to fishing from June 1 through July 15.
The creel limit on cutthroat trout shall be one (1) per day or in possession.
Fishing is permitted by the use of artificial flies and lures only.

34. Pinedale Children’s Pond in Sublette County.
It shall be unlawful for persons fourteen (14) years of age and older to fish.

35. Rock Crib Lake in Sublette County.
The creel limit on brook trout shall be six (6) per day or in possession.

36. Salt Creek (also called Thomas Fork) drainage (including Raymond Creek) upstream from the Wyoming-Idaho state line in Lincoln County.
Fishing is permitted by the use of artificial flies and lures only.

37. Smiths Fork drainage upstream from the Hobble Creek confluence (including Hobble Creek drainage) in Lincoln County.
Fishing is permitted by the use of artificial flies and lures only.

38. Soda Lake north of Pinedale in Sublette County.
Closed to fishing from November 15 through April 30.
The creel limit on trout (including brook trout) shall be one (1) per day or in possession.
Use of personal watercraft is prohibited.
Use of internal combustion motors is prohibited from May 1 through May 31.

39. South Cottonwood Creek drainage, excluding Soda Lake ponds, on the Bridger-Teton National Forest upstream from the forest boundary in Sublette County.
Fishing is permitted by the use of artificial flies and lures only.

40. South Horse Creek drainage on the Bridger-Teton National Forest upstream from the forest boundary in Sublette County.
Fishing is permitted by the use of artificial flies and lures only.

41. State Hospital Pond in Uinta County.
State Hospital Pond is open only to patients of the Wyoming State Hospital.

42. Viva Naughton Reservoir in Lincoln County.
The creel limit on trout shall be six (6) per day or in possession.
No more than one (1) trout shall exceed twenty (20) inches.
Upstream face of Viva Naughton Dam closed to fishing throughout the calendar year (no one shall fish from the dam).

43. Wagon Creek Lake in Sublette County.
The creel limit on brook trout shall be six (6) per day or in possession.

OTHER AREA 4 REGULATIONS

Area 4 Live Baitfish
The use or possession of live baitfish in Area 4 is prohibited. A holder of a valid seining license may seine, net, trap or spear baitfish in the Green and Bear River drainages, excluding Kendall Warm Springs, Halfmoon Lake, Little Halfmoon Lake, Burnt Lake, the Bitter Creek drainage upstream of Rock Springs city limits and the Big Sandy drainage upstream of Big Sandy Reservoir. Any live baitfish captured shall be killed immediately and used only as dead bait.

Flaming Gorge Reservoir Reciprocal Stamp
A person may utilize a valid Wyoming fishing license to fish in the Utah portions of Flaming Gorge Reservoir if the person possesses a valid Utah reciprocal fishing stamp. A person may utilize a valid Utah fishing license to fish in the Wyoming portions of Flaming Gorge Reservoir if the person possesses a valid Wyoming reciprocal fishing stamp. Anglers purchasing a reciprocal fishing stamp shall validate the stamp by signing in ink across the face of the stamp. Anglers who acquire a reciprocity stamp authorization through the Department’s electronic license service shall not be required to meet the signature portion of this Section. Each licensed angler may take only one (1) creel limit regardless of the number of fishing licenses or stamps held.
AREA 5 EXCEPTIONS TO STATEWIDE REGULATIONS

Area 5 means the North Platte River, Sweetwater River and South Platte River drainages. Fishing is permitted as described on pages 5-10 except as otherwise specified in this section:

1. A&M Reservoir in Sweetwater County.
   Use of internal combustion engines is prohibited.

2. Alcova Reservoir in Natrona County.
   The creel limit on walleye shall be twelve (12) per day or in possession.
   The two (2) fish limit on walleye taken by spear gun (page 7) shall not apply.

3. Alsop Lake in Albany County.
   The creel limit on trout shall be two (2) per day or in possession.
   All trout less than sixteen (16) inches shall be released to the water immediately.
   Fishing is permitted by the use of artificial flies and lures only.

   Use of internal combustion engines is prohibited.

5. Bump Sullivan Reservoir in Goshen County.
   Closed to fishing from November 1 through February 15.

6. Crow Creek, Dale Creek, Horse Creek and Lodgepole Creek drainages on the Medicine Bow-Routt National Forest (Pole Mountain District) upstream from the forest boundary in Albany County.
   The creel limit on brook trout shall be six (6) per day or in possession.

7. Crystal Reservoir in Laramie County.
   Motorized watercraft in excess of fifteen (15) horsepower prohibited.

8. Dome Rock Reservoir in Carbon County.
   The creel limit on trout shall be one (1) per day or in possession.
   All trout less than twenty (20) inches shall be released to the water immediately.
   Fishing is permitted by the use of artificial flies and lures only.

9. Edness Kimball Wilkins State Park, all ponds within the park in Natrona County.
   Closed to fishing, minnow seining and minnow trapping throughout the calendar year.
   Use of internal combustion engines is prohibited.

10. Encampment River, from Highway 230 at Riverside downstream to its confluence with the North Platte River in Carbon County.
    Fishing is permitted by the use of artificial flies and lures only.

11. Festo Lake in Platte County.
    Use of internal combustion engines is prohibited.

12. Glendo Reservoir including the North Platte River downstream from the bridge on Highway 319 (near Orin Junction) to Glendo Reservoir in Platte County.
    All walleye less than fifteen (15) inches shall be released to the water immediately.
    All walleye must be kept whole (gills and entrails may be removed) until the angler is off the water or ice and done fishing for the day. Once off the water or ice and done fishing for the day, walleye can be filleted for transportation and storage. A piece of skin large enough to allow species identification (at least one (1) inch square) shall remain on all fish fillets while in transit or in the field.
    The Special Fishing Contest Provision on page 7 applies.
    No fishing contests shall be approved from June 15 through June 30 during each calendar year.
13. Grayrocks Reservoir in Platte County.
The area between the spillway and floating regulatory buoys or as designated by regulatory signing is closed to fishing and watercraft throughout the calendar year. The creel limit on largemouth and smallmouth bass in combination shall be three (3) per day or in possession. No more than one (1) shall exceed twelve (12) inches.

14. Hawk Springs Reservoir in Goshen County.
Watercraft prohibited from December 1 - February 15.

15. Huck Finn Pond in Albany County.
It shall be unlawful for persons fourteen (14) years of age and older to fish.

16. Johnson Creek Reservoir in Albany County.
Use of internal combustion engines is prohibited.

17. Lake Absaraca (Country Club Lake) in Laramie County.
All largemouth and smallmouth bass less than fifteen (15) inches shall be released to the water immediately. Use of internal combustion engines is prohibited.

18. Leazenby Lake in Albany County.
Use of internal combustion engines is prohibited.

Use of internal combustion engines is prohibited.

20. McIntosh Pond 2 (Western Nuclear Pond) in Fremont County.
Use of motorized watercraft is prohibited.

21. Medicine Bow National Forest including all lakes within the boundaries of Medicine Bow National Forest, except Sand Lake, Turpin Reservoir, Lake Owen, Rob Roy Reservoir and Hog Park Reservoir, in Carbon and Albany counties. Use of internal combustion engines is prohibited.

22. North Platte River from Colorado-Wyoming state line downstream to the Saratoga Inn Bridge in Carbon County.
Fishing is permitted by the use of artificial flies and lures only. Use of motorized watercraft is prohibited.

23. North Platte River from Kortes Dam downstream to the confluence with Sage Creek (Miracle Mile) in Carbon County. The creel limit on trout shall be three (3) per day or in possession. No more than one (1) trout shall exceed sixteen (16) inches. The creel limit on walleye shall be twelve (12) per day or in possession.

24. North Platte River from Pathfinder Dam downstream eight tenths (0.8) of a mile to the vehicle bridge in Natrona County. The creel limit on trout shall be one (1) per day or in possession.

25. North Platte River from vehicle bridge eight tenths (0.8) of a mile downstream from Pathfinder Dam downstream to Alcova Reservoir in Natrona County. The creel limit on trout shall be one (1) per day or in possession. All trout less than twenty (20) inches shall be released to the water immediately. Fishing is permitted by the use of artificial flies and lures only.

26. North Platte River from Alcova Dam downstream to Gray Reef Reservoir in Natrona County. The creel limit on trout shall be six (6) per day or in possession.

27. North Platte River from Gray Reef Dam downstream, eight (8) miles to the upstream boundary of the Lusby Public Fishing Area in Natrona County. The creel limit on trout shall be one (1) per day or in possession. All trout less than twenty (20) inches shall be released to the water immediately. Fishing is permitted by the use of artificial flies and lures only. That portion lying between the “Closed Area” signs at the gauge cable crossings (the first cable crossing is approximately 700 yards downstream from Gray Reef Dam) is closed to fishing from April 1 through April 30.

28. North Platte River drainage streams from Bessemer Bend Bridge (Natrona County Road 308) downstream to Guernsey Dam in Albany, Converse, Natrona and Platte counties. The creel limit on trout shall be six (6) per day or in possession. No more than one (1) trout shall exceed twenty (20) inches.

29. North Platte River to include that area between the Dave Johnston Power Plant Public Access Area and the Dave Johnston Power Plant in Converse County. Watercraft prohibited.

30. North Platte River to include only that area between Glendo Dam and Glendo Power plant in Platte County. Watercraft prohibited.

31. Packers Lake in Goshen County.
All largemouth and smallmouth bass less than fifteen (15) inches shall be released to the water immediately. Motorized watercraft in excess of fifteen (15) horsepower prohibited.

32. Rawlins City Reservoir in Carbon County.
Use of internal combustion engines is prohibited.

33. Sloans Lake in Laramie County.
All largemouth and smallmouth bass less than fifteen (15) inches shall be released to the water immediately. Motorized watercraft in excess of fifteen (15) horsepower prohibited.
34. South Springer Reservoir in Goshen County. Use of internal combustion engines is prohibited.

35. Springer Reservoir in Goshen County. Closed to fishing from November 1 through February 15.

36. Turpin Reservoir in Carbon County. Motorized watercraft in excess of fifteen (15) horsepower prohibited.

37. Upper North Crow Reservoir in Laramie and Albany counties. Use of internal combustion engines is prohibited.

38. Wheatland Reservoir No. 3 Canal from the headgate in Reservoir No. 2 to the mouth in Reservoir No. 3 in Albany County. Watercraft prohibited.

OTHER AREA 5 REGULATIONS

Area 5 Live Baitfish
The use or possession of live baitfish in Area 5 is prohibited except as specified below.

Live baitfish may be used for bait in Seminoe, Kortes, Pathfinder, Alcova, Gray Reef, Glendo, Guernsey, Grayrocks, Hawk Springs, Bump Sullivan, Wheatland #1, and Springer reservoirs, Rock, Festo, and Packers lakes, and the North Platte River proper from Interstate Highway 80 downstream to the Wyoming-Nebraska state line (except eight (8) river miles from Gray Reef Dam to the upstream boundary of the Lusby Public Fishing Area and from vehicle bridge eight tenths (0.8) of a mile downstream from Pathfinder Dam downstream to Alcova Reservoir) provided the baitfish are obtained from a licensed live baitfish dealer authorized to sell baitfish for use in those waters. Seining and trapping of live baitfish is prohibited in all waters in the Horse Creek drainage, the South Platte River drainage, the Medicine Bow National Forest and all waters located west of Interstate Highway 25 in the Laramie River drainage.

Area 5 Live Baitfish Location A
Live baitfish may be used for bait in the waters listed in subsection (i) provided the baitfish are obtained from a licensed live baitfish dealer authorized to sell baitfish for use in these waters or the baitfish were seined or trapped from the waters listed below in subsection (ii). Live baitfish restricted to use in location A shall not be transported out of the designated wild caught live baitfish possession area defined in subsection (iii).

(i) Live baitfish may be used in the following waters: Glendo Reservoir; Guernsey Reservoir; Grayrocks Reservoir; Hawk Springs Reservoir; Wheatland Reservoir #1; Bump Sullivan Reservoir; Springer Reservoir; Rock Lake; Festo Lake; Packers Lake; and, North Platte River proper downstream from the dam at Dave Johnston Power Plant (Converse County) to the Wyoming-Nebraska state line.

(ii) A holder of a valid seining license may seine, net or trap baitfish from the following waters: North Platte River drainage from Dave Johnston Power Plant (Converse County) downstream to Glendo Dam except in the Medicine Bow National Forest; North Platte River proper downstream from Glendo Dam to the Wyoming-Nebraska state line; and, Laramie River drainage east of Interstate Highway 25.

(iii) The designated wild caught live baitfish possession area for location A is the North Platte River drainage below the Dave Johnston Power Plant (Converse County).

Area 5 Live Baitfish Location B
Live baitfish may be used for bait in the waters listed in subsection (i) provided the baitfish are obtained from a licensed live baitfish dealer authorized to sell baitfish for use in these waters or the baitfish were seined or trapped from the waters listed below in subsection (ii). Live baitfish restricted to use in location B shall not be transported out of the designated wild caught live baitfish possession area defined in subsection (iii).

(i) Live baitfish may be used in the following waters: Pathfinder Reservoir; Alcova Reservoir; Gray Reef Reservoir; Glendo Reservoir; Kortes Reservoir; and, North Platte River proper between Seminoe Dam and Glendo Dam, except eight (8) river miles from Gray Reef Dam to the upstream boundary of the Lusby Public Fishing Area and from the vehicle bridge eight tenths (0.8) of a mile downstream from Pathfinder Dam downstream to Alcova Reservoir.

(ii) A holder of a valid seining license may seine, net or trap baitfish from the following waters: North Platte River drainage from Seminoe Dam downstream to the dam at Dave Johnston Power Plant (Converse County).

(iii) The designated wild caught live baitfish possession area for location B is the North Platte River drainage below Seminoe Dam (Carbon County) downstream to Glendo Dam (Platte County).

Area 5 Live Baitfish Location C
Live baitfish may be used for bait in the waters listed in subsection (i) provided the baitfish are obtained from a licensed live baitfish dealer authorized to sell baitfish for use in these waters or the baitfish were seined or trapped from the waters listed below in subsection (ii). Live baitfish restricted to use in location C shall not be transported out of the designated wild caught live baitfish possession area defined in subsection (iii).

(i) Live baitfish may be used in the following waters: Seminoe Reservoir; North Platte River from Seminoe Reservoir to Interstate Highway 80.

(ii) A holder of a valid seining license may seine, net or trap baitfish from the following waters: North Platte River drainage from Interstate Highway 80 downstream to Seminoe Dam.

(iii) The designated wild caught live baitfish possession area for location C is the North Platte River drainage below Interstate Highway 80 downstream to Seminoe Dam (Carbon County).

Area 5 Live Baitfish Location D
Live baitfish may not be used in this area. Any baitfish seized or trapped from the waters listed below in subsection (i) shall be killed immediately or released to the water immediately.

(i) A holder of a valid seining license may seine, net or trap baitfish for use as dead bait from the following waters: North Platte River drainage upstream from Interstate Highway 80 to the Medicine Bow National Forest.
WYOMING SEARCH & RESCUE personnel conduct more than 300 missions annually for those who become lost, stranded or injured.

EVEN $2 Can help...
donate to Search & Rescue when you purchase your fishing, hunting, boating, snowmobile and ORV licenses.

The next person saved could be you or someone you love.

NEW REGULATIONS REQUIRE BOATERS TO ...

Immediately drain all water from watercraft when leaving a water, including water in the hull, ballast tanks, bilges, live wells and motor and remove all visible plants from the watercraft and trailer.

- Bilge, ballast, and live well plugs must be removed from watercraft and remain open during transport within Wyoming to allow compartments to fully drain and dry.
- Live baitfish may not be transported in a boat live well by land.
- Coolers and containers may be used to transport legal live baitfish if they are not part of the watercraft and are free of aquatic vegetation.

*All boats entering Wyoming from out of state MUST be inspected before launching. Call 1-877-WGFD-AIS (877-943-3247) for inspection information or to report an invasive species sighting.*

wgfd.wyo.gov/AIS

**CLEAN**

Clean all plants, mud, and debris from gear and equipment. Never move a plant or animal from one location to another.

**DRAIN**

Boaters must remove all plugs and barriers and travel with them open to thoroughly drain and dry watercraft and equipment. Leave wet compartments open to dry.

**DRY**

Dry everything thoroughly. Dry for 5 days in the summer, 18 days in the spring or fall, or 3 days at freezing temperatures.
