

PROTECT YOUR WATERS

***You can stop the spread of invasive species.
Before you boat or fish, follow these simple steps:***

✓ DRAIN

Drain all water from your gear and equipment. This includes all types of watercraft, waders, boots, clothing, buckets-anything that comes into contact with the water. Leave wet compartments open to dry.

✓ CLEAN

Clean all plants, mud, and debris from gear and equipment. Never move a plant or animal from one location to another.

✓ DRY

Dry everything thoroughly. Dry for 5 days in the summer, 18 days in spring or fall, or 3 days of freezing.

Boats must have a Wyoming aquatic invasive species decal to launch.

***Watercraft transported into Wyoming
MUST be inspected before launching.***

Call 1-877-WGFD-AIS (877-943-3247) for inspection information.
