*Help Protect Wyoming
Waters from Invasive Species*

PROTECT YOUR WATERS

Kayaks, canoes, rafts, and drift boats can harbor invasive species.

You can stop the spread of invasive species. Before you launch or move to another water, follow these simple steps:

- ✓ DRAIN** Drain all water from your kayak, raft, canoe, or drift boat. Leave wet compartments open to dry.
- ✓ CLEAN** Clean all plants, mud, and debris from your boat and gear.
- ✓ DRY** Dry your boat and gear for 5 days in the summer, 18 days in spring or fall, or 3 days of freezing.

Boats must have a Wyoming aquatic invasive species decal to launch.

Contact the Wyoming Game and Fish Department if you see any invasive species on your equipment or in Wyoming waters.

Zebra/Quagga Mussels

Asian Carp

New Zealand Mudsails

Invasive Plants

Rusty Crayfish

Watercraft transported into Wyoming MUST be inspected before launching.

Call 1-877-WGFD-AIS (877-943-3247) for inspection information.
