

Driving Directions: Take highway 14 east from Greybull and past the town of Shell to the Shell Falls visitor center. From there, travel approximately 0.75 mile further east to a 2-track road (Forest Rd 264). You can travel a short distance up the road in a high clearance 4-wheel drive vehicle, but ATVs are recommended at this point. You can take ATVs to Brindle Creek about 1.7 miles down the trail, but have to hike another 2.3 miles from there on well defined trail to a bridge crossing of Cedar Ck.
