

**Driving Directions:** Take highway 191 south from Rock Springs about 19 miles to the Upper Sage Creek Road. This road comes in from the West (right). Go a little over 2 miles to the first fork and take a left along Trout Creek, generally traveling south. Follow this 2-track road about 8 miles upstream to an irrigation diversion (Ramsey Ditch). The instream flow segment begins just above the diversion and extends upstream (south) almost 4 miles to the confluence of the East and West Forks of Trout Creek.
