Driving Directions:
Travel northwest on highway US 26 W/287 N from Dubois to the USFS boundary and continue about 3.75 miles farther to Forest Road 513 (Long Creek Road) on the right. Travel on FR 513 about 4.75 miles to the Middle Fork Long Creek crossing, which is near the middle of the instream flow segment. The downstream end of the segment is at the boundary between USFS and BLM property. The segment extends 4.05 miles upstream from that boundary to the upper extent of the Yellowstone Cutthroat Trout population. The segment is entirely on USFS land.
