**JOB COMPLETION REPORT  
INVESTIGATIONS PROJECT**

**STATE OF Wyoming**

**NAME: Big and Trophy Game Harvest Surveys**

**PROJECT N. W-27-R-43**

**PREPARED BY: Biological Services Section  
Reg. Rothwell, Supervisor**

**PROJECT OBJECTIVE NO. 1 JOB NO. 1**

**PERIOD COVERED: June 1, 2008 to May 31, 2009**

**ABSTRACT:**

This report contains the results of harvest surveys for the 2008 big and trophy game hunting seasons. Harvest and hunting activity estimates for all big game, black bear and mountain lion were obtained by sampling licensed hunters with Internet and mailed questionnaires. Big and trophy game archery harvest for each species was determined as part of these surveys.

**OBJECTIVES:**

1. To determine the 2008 big and trophy game harvest.
2. To determine the number of active hunters, days spent hunting big and trophy game, the number of days required to harvest an animal, and the percent hunter success during 2008 hunting season.

**PROCEDURES:**

The 2008 pronghorn, deer, elk, black bear, and mountain lion harvest surveys were conducted by PA Consulting, Inc. (PA), the Department's harvest survey contractor for these species. At the close of the 2008 fall hunting season, license holders selected for the harvest survey were sent a postcard, asking them to complete the 2008 harvest survey on the internet site PA established for this purpose. Mountain lion hunters were contacted after the majority of hunting seasons closed on March 31, 2009 (Three hunt areas remain open year round). After a period of time, each non-respondent was a sent harvest questionnaire by mail.

The procedures used in making the harvest and hunting estimates for pronghorn, deer and elk were similar. In general, a stratified systematic random sample was drawn from holders of pronghorn, deer and elk licenses. License holders were stratified by residency, license type, hunt area(s), and/or region in which their licenses were valid. Resident general deer and elk license holders were also stratified by the county in which their licenses were purchased. For black bear and mountain lion, only information on hunter effort and success was requested since registration of all harvested black bears and mountain lions is mandatory. Black bear and mountain lion surveys are censuses. Because 3 mountain lion hunt areas are open from September 1 through August 31 (essentially year round), hunters were asked to estimate how much they would hunt in those hunt areas from April 1 through August 31, and PA then estimated effort and success for them.

Big game license holder samples adequate to meet survey objectives for both resident and nonresident hunters were drawn from license data, and they included both general and limited quota license types. Big game harvest estimates were made for each hunt area and for each herd unit within the state. Herd units consist of one or more hunt areas. Harvest for a herd unit was determined by combining harvest estimates from the appropriate hunt areas and removing duplicate hunters (counting a hunter using two hunt areas within the same herd unit only once).

Hunters with general licenses are allowed to hunt many areas. Even hunters with limited quota licenses are allowed to hunt more than one area in some herd units. As a result, two steps are required to eliminate double or triple counting of hunters and provide accurate estimates of individual hunter numbers. When estimates of the number of hunters per herd unit are made, we count those who hunted more than one area within a herd unit as one hunter. Likewise, for statewide hunter estimates, we considered those who hunted more than one herd unit only one hunter. Thus, adding hunter numbers for hunt areas, herd units and the entire state would produce three different estimates of hunter numbers. All are accurate, but with a different frame of reference.

Additional questions were asked of hunters in an attempt to determine hunter satisfaction and hunter use of the lands enrolled in the Department's Private Lands Public Wildlife program.

Starting in 2007, archery harvest information has been obtained as part of the harvest surveys conducted by the harvest survey contractor. In the past, archery harvest information was obtained by a separate survey conducted by the Department's Biological Services Section.

## CHAPTER 15

### WILD BISON RECREATIONAL HUNTING SEASON

Section 1. Authority. This regulation is promulgated by authority of W.S. §23-1-101, §23-1-302 and §23-2-107.

Section 2. Regulation. The Wyoming Game and Fish Commission hereby adopts the following regulation governing wild bison recreational hunting seasons. This regulation shall remain in effect until modified or repealed by the Commission.

Section 3. Definitions. For the purpose of this regulation, definitions shall be as set forth in Title 23, Wyoming Statutes, and the Commission also adopts the following definitions:

(a) “Edible portions” means the meat of the front quarters as far down as the knees, the meat of the hindquarters as far down as the hocks, and the meat along the backbone between the neck and hindquarters, excluding meat on the ribs and neck.

(b) “Harvest year” means seven (7) consecutive months beginning July 1 of each year through January 31 of the next succeeding year.

Section 4. Recreational Hunting Season Established and Effective Date. When the Department determines a wild bison recreational hunting opportunity exists, there shall be a wild bison recreational hunting season as established in accordance with Section 5 through Section 19 of this regulation.

Section 5. Supervision of Licensees. Wild bison recreational hunting may be done under the supervision or direction of Department personnel.

Section 6. Notification.

(a) Applicants shall be notified of their placement on the wild bison priority list by the Department. Applicants on the wild bison priority list shall also be notified by mail or by telephone, in order of their priority ranking, when the Department determines a wild bison recreational hunting opportunity may exist. If telephone calls are made, the calls shall be done by the Department during the evening hours between 4:00 p.m. and 10:00 p.m. If telephone calls are made, a minimum of three (3) attempts by telephone shall be made that evening and the subsequent evening to contact and notify any individual applicant. Notification attempts shall be spaced at a minimum of one-half (½) hour intervals. Department personnel must speak directly to the applicant during the notification call. If an individual cannot be contacted, the next individual on the list shall be notified and those who could not be contacted shall retain their positions on the wild bison priority list. An applicant who declines participation shall have his name removed from the wild bison priority list.

(b) At the Department’s discretion, notification may be made by mail. The Department shall send notification by first-class mail to the address listed on the

applicant's application for placement on the wild bison priority list. The notification shall be mailed a minimum of ten (10) days immediately prior to the scheduled wild bison hunting season.

(c) Applicants shall be advised during the notification call or by mail of: the date, time, and location of their scheduled wild bison recreational hunt. Applicants contacted may have an opportunity to receive a permit valid for hunting wild bison on the National Elk Refuge.

Section 7. Selection of Bison to be Harvested.

(a) Hunters may be directed by Department personnel to take a specific age class of wild bison in a specific geographic portion of a hunt area and during a specific time period in order to meet the Department's management objectives. Numbers and age classes of wild bison available when the applicant arrives may differ from those available at the time of the notification call or letter. Issuance of a wild bison license provides the licensee an opportunity to hunt a wild bison; it does not guarantee that a licensee shall harvest a wild bison.

Section 8. Wild Bison Hunting Orientation Information.

(a) After notification, individuals interested in participating in the wild bison recreational hunting season shall be provided wild bison hunting orientation information in a manner determined by the Department.

Section 9. Firearms. Wild bison shall only be taken with a firearm which has a barrel bore diameter of at least twenty-seven hundredths (27/100) of an inch and is chambered to fire a center-fire cartridge not less than two (2) inches in overall length, including a soft or expanding point bullet seated to a normal depth. The cartridge shall have a minimum of a one hundred fifty (150) grain bullet.

Section 10. Licensing. Licenses shall be issued upon payment by the applicant of the proper license fee at the Department Regional Office administering the wild bison recreational hunt. A license must be purchased prior to participating in the wild bison recreational hunt. A conservation stamp shall be in possession of the licensee while exercising the privileges under the wild bison license.

Section 11. National Elk Refuge Permits. A National Elk Refuge permit is required prior to hunting wild bison on the National Elk Refuge and shall be in possession of the hunter while hunting wild bison on the National Elk Refuge. A limited number of permits shall be available to hunt wild bison on the National Elk Refuge. Permits shall be issued by the Department to licensed wild bison hunters in the order of their placement on the wild bison priority list and shall be valid only for specified dates.

Section 12. Tagging Requirements. When any wild bison is killed under a license, the licensee shall detach, sign and date the carcass coupon and attach the coupon to the carcass before leaving the site of the kill. The coupon shall remain on the wild bison carcass at all times until the meat undergoes processing, except that during transportation of the carcass the coupon may be removed to prevent its loss. If the coupon is removed for transportation of the carcass, it shall be in the possession of the person accompanying the carcass at all times.

Section 13. Retrieval of Edible Portions. No person shall take and leave, abandon, or allow any wild bison, or edible portion to intentionally or needlessly go to waste. The failure of any person to properly dress and care for any wild bison killed by that person and if the carcass is reasonably accessible, within forty-eight (48) hours to take or transport the carcass to the camp of that person, and to properly care for the carcass is prima facie evidence of a violation of this section.

Section 14. Wearing of Fluorescent Orange Clothing. No person shall hunt any wild bison without wearing in a visible manner one (1) or more exterior garments, which shall include a hat, shirt, jacket, coat, vest or sweater of a fluorescent orange color.

Section 15. Transportation and Exportation.

(a) No person shall ship, transport, or receive for shipment or transportation within Wyoming, any wild bison or part thereof, unless tagged with a Wyoming interstate game tag, or unless:

(i) The transportation is by a person accompanying the carcass of a wild bison who is in possession of a proper coupon.

(b) No wild bison or any part thereof shall be shipped or transported from the State unless accompanied by the licensee who harvested the animal, in possession of a proper coupon, or unless:

(i) The part to be exported from the State is of a nonedible trophy or hidelike nature and properly tagged with a Wyoming interstate game tag.

(ii) The wild bison was legally harvested by a nonresident and is tagged with a Wyoming interstate game tag.

Section 16. Hunting Regulations.

(a) Shooting Hours. Shooting hours for the hunting of wild bison shall be from one-half (1/2) hour before sunrise to one-half (1/2) hour after sunset.

(b) Within three (3) consecutive days (seventy-two (72) hours) after taking a wild bison, the licensee shall contact the Department Regional Office where the licensee obtained his wild bison license during business hours to report the harvest. The licensee shall report the date of the harvest, the sex, age class (adult, yearling, calf) of the bison harvested, supply biological samples as required by the Department and provide the legal description of where the bison was harvested to include section, range and township or UTM coordinates.

(c) Bag and Possession Limits. The bag and possession limit for wild bison shall be one (1) wild bison during any one (1) harvest year. No person who is issued a wild bison hunting license and who harvests a wild bison after January 31, 2001, shall be eligible to apply for or receive a hunting license for wild bison in any future year.

WYOMING GAME AND FISH COMMISSION

By:

Jerry Galles, President

Date: December 5, 2008

STATEMENT OF REASON FOR AN EMERGENCY RULE

WYOMING GAME AND FISH COMMISSION

CHAPTER 15

WILD BISON RECREATIONAL HUNTING SEASON

Justification:

Extremely mild fall and early winter weather conditions have prevented the Wyoming Game and Fish Department from achieving their harvest management objective for the 2008 Wild Bison hunting season. In 2007 the Game and Fish Department recorded a harvest of 266 wild bison during the hunting season. As of December 5, 2008 the Department has recorded only 136 wild bison harvested during the 2008-hunting season. The 2008 pre-hunt wild bison population estimate is 1200 wild bison. The population objective for this herd is 500 bison. In order to manage toward the population objective the harvest of additional wild bison, especially female wild bison, must be increased.

When the Jackson wild bison hunt area experiences mild weather conditions, such as through the fall of 2008, the majority of the herd remains in a closed area within Grand Teton National park, and are unavailable to hunters. By extending this hunting season, the Department anticipates wild bison may move into areas accessible to hunters, facilitating additional harvest.

W.S. § 23-1-302 directs and empowers the Commission to fix seasons and bag limits, open, shorten or close seasons on any species or sex of wildlife except predatory animals, predacious birds, protected animals and protected birds.

W.S. § 23-2-107 empowers the Commission to promulgate reasonable rules and regulations regulating wild bison licenses and the management of wild bison.

In Section 16, the closing date for hunt area 2, type 2 and 5 licenses is being changed from December 15, 2008 to January 4, 2009.

In Section 17, language has been added to advise hunters that portions of U. S. Forest Service lands may be closed to seasonal travel or human presence. Hunters are further encouraged to consult the Bridger-Teton National Forest's winter travel map to identify such closures prior to hunting.
