STATE OF Wyoming

NAME: **Big and Trophy Game Harvest Surveys**

PROJECT N. W-27-R-43

PREPARED BY: **Biological Services Section

Gail Sheridan,
Harvest Survey Coordinator**

PROJECT OBJECTIVE NO. 1 JOB NO. 1

PERIOD COVERED: June 1, 2010 to May 31, 2011

ABSTRACT:

This report contains the results of harvest surveys for the 2010 big and trophy game hunting seasons. Harvest and hunting activity estimates for all big game, and black bear were obtained by sampling licensed hunters with Internet and mailed questionnaires. Big and trophy game archery harvest for each species was determined as part of these surveys.

OBJECTIVES:

1. To determine the 2010 big and trophy game harvest.
2. To determine the number of active hunters, days spent hunting big and trophy game, the number of days required to harvest an animal, and the percent hunter success during 2010 hunting season.

PROCEDURES:

The 2010 pronghorn, deer, elk, and black bear harvest surveys were conducted by Tetra Tech Consulting, Inc. , the Department's harvest survey contractor for these species. Tetra Tech bought PA Consulting, Inc. last year. The purchase of PA by Tetra Tech did not result in any changes to harvest survey methods or personnel working on the harvest survey. At the close of the 2010 fall hunting season, license holders selected for the harvest survey were sent a postcard, asking them to complete the 2010 harvest survey on the internet site Tetra Tech established for this purpose.

In general, a stratified systematic random sample was drawn from holders of pronghorn, deer and elk licenses. License holders were stratified by residency, license type, hunt area(s), and/or region in which their licenses were valid. Resident general deer and elk license holders were also stratified by the county in which their licenses were purchased. For black bear, only information on hunter effort and success was requested since registration of all harvested black bears is mandatory. The black bear survey is censuses.

Big game license holder samples adequate to meet survey objectives for both resident and nonresident hunters were drawn from license data, and they included both general and limited quota license types. Big game harvest estimates were made for each hunt area and for each herd unit within the state. Herd units consist of one or more hunt areas. Harvest for a herd unit was determined by combining harvest estimates from the appropriate hunt areas and removing duplicate hunters (counting a hunter using two hunt areas within the same herd unit only once).

Hunters with general licenses are allowed to hunt many areas. Even hunters with limited quota licenses are allowed to hunt more than one area in some herd units. As a result, two steps are required to eliminate double or triple counting of hunters and provide accurate estimates of individual hunter numbers. When estimates of the number of hunters per herd unit are made, we count those who hunted more than one area within a herd unit as one hunter. Likewise, for statewide hunter estimates, we considered those who hunted more than one herd unit only one hunter. Thus, adding hunter numbers for hunt areas, herd units and the entire state would produce three different estimates of hunter numbers. All are accurate, but with a different frame of reference.

Additional questions were asked of hunters in an attempt to determine hunter satisfaction and hunter use of the lands enrolled in the Department's Private Lands Public Wildlife program.

Starting in 2007, archery harvest information has been obtained as part of the harvest surveys conducted by the harvest survey contractor. In the past, archery harvest information was obtained by a separate survey conducted by the Department's Biological Services Section.

Private Lands Public Wildlife Access Program

In 1997, the Wyoming Game and Fish Department began the Private Lands Public Wildlife Access Program (PLPW) to improve public hunting and fishing access on private and land-locked public lands through the **Walk-in Area** and **Hunter Management Area** programs. Your response to the following questions will help the Department improve this program to better serve hunters.

- Q9** Did you hunt Pronghorn on any of the PLPW Walk-in Areas or Hunter Management Areas during the 2010 season? *(Note: Walk-in Areas are open to hunting without a permission slip, but a permission slip is needed for Hunter Management Areas)*

(a) The Wyoming Game and Fish Department may require substantive proof from individuals who do not possess a valid bighorn sheep license and take bighorn sheep horns that the horns were legally acquired. Failure to provide such proof may result in seizure of the horns. Before a person’s bighorn sheep horns may be plugged, the person may be required to take a Wyoming Game and Fish Department enforcement officer to the location where the bighorn sheep horns were acquired. Failure to comply with this request shall be a violation of this regulation and the bighorn sheep horns may be seized.

(b) No person shall alter, deface or remove a plug placed in a bighorn sheep horn by the Wyoming Game and Fish Department.

(c) No person shall possess the horn(s) of a bighorn sheep that bears an altered, defaced or counterfeit Wyoming plug or from which the plug has been removed.

(d) The insertion of a Wyoming plug does not in itself certify that the animal was legally taken or possessed.

(e) Any person who makes a false statement on the registration form regarding the date the bighorn sheep was taken or the hunt area in which it was taken shall be in violation of this regulation. Such violation shall be punishable as provided by Title 23, Wyoming Statutes for violation of Commission regulations.

CHAPTER 15

WILD BISON RECREATIONAL HUNTING SEASON

Section 1. Authority. This regulation is promulgated by authority of W.S. §23-1-101, §23-1-302 and §23-2-107.

Section 2. Regulation. The Wyoming Game and Fish Commission hereby adopts the following regulation governing wild bison recreational hunting seasons. This regulation shall remain in effect until modified or repealed by the Commission.

Section 3. Definitions. For the purpose of this regulation, definitions shall be as set forth in Title 23, Wyoming Statutes, and the Commission also adopts the following definitions:

(a) “Archery Equipment” means a bow of at least fifty (50) pounds draw weight or possessing the ability to cast a hunting arrow of five hundred (500) grain weight at least one hundred sixty (160) yards. The crossbow hunter must be equipped with a crossbow of not less than ninety (90) pounds draw weight which has a minimum draw length of fourteen (14) inches (from front of bow to back of string in the cocked position) and a positive safety mechanism. Crossbow bolts must be at least sixteen (16) inches long. The broadhead of arrows or bolts shall be of sharp steel with a minimum cutting width of one (1) inch.

(b) “Bull” means an adult male bison.

(c) “Calf” means young of the year bison.

(d) “Cow” means an adult female bison.

(e) “Edible portions” means the meat of the front quarters as far down as the knees, the meat of the hindquarters as far down as the hocks, and the meat along the backbone between the neck and hindquarters including the loins and tenderloins, excluding meat on the ribs and neck.

(f) “Firearm” means any firearm which has a barrel bore diameter of at least twenty-seven hundredths (27/100) of an inch and is chambered to fire a center-fire cartridge not less than two (2) inches in overall length, including a soft or expanding point bullet of a minimum of one hundred fifty (150) grains, seated to a normal depth.

(g) “Hunter Information Card” means a survey form used by the Department to collect wild bison hunting and harvest information.

(h) “Muzzle-loading Firearm” means a muzzle-loading rifle having a barrel bore diameter of at least 50/100 of an inch and a charge of at least one hundred (100) grains of black powder or equivalent.

(i) “National Elk Refuge Permit” means a permit that allows a properly licensed wild bison hunter to access the National Elk Refuge to take a bison.

(j) “Site of kill” means the location where the harvested animal died.

(k) “Type” means a limitation on a bison license in a particular hunt area for the sex of animal, the length of season, the type of weapon or a portion of a hunt area in which the license shall be valid.

(l) “Wild Bison Priority List” means random lists generated from all bison applicants for the current harvest year.

Section 4. Recreational Hunting Season Established and Effective Date.
When the Department determines a wild bison recreational hunting opportunity exists, there shall be a wild bison recreational hunting season as established in accordance with Section 5 through Section 19 of this regulation.

Section 5. Supervision of Licensees. Wild bison recreational hunting may be done under the supervision or direction of Department personnel.

Section 6. Notification.

(a) Applicants shall be notified by mail of their placement on the wild bison priority list by the Department.

(b) Applicants on the wild bison priority list shall be notified by mail or by telephone, in order of their priority ranking, when the Department determines a wild bison recreational hunting opportunity may exist. The notification shall be mailed a minimum of five (5) days immediately prior to the scheduled wild bison hunting season.

(c) At the Department’s discretion, additional notifications may be made by mail or by telephone. If telephone calls are made, the calls shall be done by the Department during the evening hours between 4:00 p.m. and 10:00 p.m. Mountain Time. If telephone calls are made, a minimum of three (3) attempts by telephone shall be made that evening and the subsequent evening to contact and notify any individual applicant. Notification attempts shall be spaced at a minimum of one-half (½) hour intervals. Department personnel must speak directly to the applicant during the notification call. If an individual cannot be contacted, the next individual on the list shall be notified and those who could not be contacted shall retain their positions on the wild bison priority list.

Section 7. Selection of Bison to be Harvested.

(a) Hunters may be directed by Department personnel to take a specific age class of wild bison in a specific geographic portion of a hunt area, during a specific time period or by a specific method of take in order to meet the Department’s management objectives. Numbers and age classes of wild bison available when the applicant arrives may differ from those available at the time of the notification call or letter. Issuance of a wild bison license provides the licensee an opportunity to hunt a wild bison; it does not guarantee that a licensee shall harvest a wild bison.

Section 8. Wild Bison Hunting Orientation Information.

(a) Applicants selected to participate in the wild bison recreational hunting season shall be provided wild bison hunting orientation information in a manner determined by the Department.

Section 9. Legal Methods of Take. Wild bison shall be taken by the use of legal firearms, archery equipment and muzzle-loading firearms; except as provided in this section. Wild bison shall only be taken by the use of legal firearms on the National Elk Refuge.

Section 10. Licensing. Licenses shall be issued upon payment by the applicant of the proper license fee at the Department Regional Office administering the wild bison recreational hunt. A license must be purchased prior to participating in the wild bison recreational hunt. A conservation stamp shall be in possession of the licensee while exercising the privileges under the wild bison license.

Section 11. National Elk Refuge Permits. A National Elk Refuge permit is required prior to hunting wild bison on the National Elk Refuge and shall be in possession of the hunter while hunting wild bison on the National Elk Refuge. A limited number of permits shall be available to hunt wild bison on the National Elk Refuge. Permits shall be issued by the Department to licensed wild bison hunters in the order of their placement on the wild bison priority list and shall be valid only for specified dates. Alternate permits may become available throughout the hunting season depending upon harvest and management objectives.

Section 12. Tagging Requirements. When any wild bison is killed under a license, the licensee shall detach, sign and date the carcass coupon and attach the coupon to the carcass before leaving the site of the kill. The coupon shall remain on the wild bison carcass at all times until the meat undergoes processing, except that during transportation of the carcass the coupon may be removed to prevent its loss. If the coupon is removed for transportation of the carcass, it shall be in the possession of the person accompanying the carcass at all times.

Section 13. Retrieval of Edible Portions. No person shall take and leave, abandon, or allow any wild bison, or edible portion to intentionally or needlessly go to waste. The failure of any person to properly dress and care for any wild bison killed by that person and if the carcass is reasonably accessible, within forty-eight (48) hours to take or transport the carcass to the camp of that person, and to properly care for the carcass is prima facie evidence of a violation of this section. The Department may require substantive proof from any person who fails to retrieve from the site of kill all edible portions of a wild bison as to why the edible portions were not removed from the field.

Section 14. Wearing of Fluorescent Orange Clothing. No person shall hunt any wild bison without wearing in a visible manner one (1) or more exterior garments, which shall include a hat, shirt, jacket, coat, vest or sweater of a fluorescent orange color.

Section 15. Retention of Evidence To Identify Sex of Wild Bison Harvested. Any person who takes any wild bison in a hunt area where the taking of either sex is controlled or prohibited shall comply with this section while said animal is in

transportation from the site of the kill to the residence of the person taking the wild bison, or delivered to a processor for processing.

(a) In hunt areas where the taking of any wild bison is restricted to a specific sex of animal, the visible external sex organs shall accompany the animal as a whole, or edible portion thereof.

Section 16. Transportation and Exportation.

(a) No person shall ship, transport, or receive for shipment or transportation within Wyoming, any wild bison or part thereof, unless tagged with a Wyoming interstate game tag, or unless:

(i) The transportation is by a person accompanying the carcass of a wild bison who is in possession of a proper coupon.

(b) No wild bison or any part thereof shall be shipped or transported from the State unless accompanied by the licensee who harvested the animal, in possession of a proper coupon, or unless:

(i) The part to be exported from the State is of a nonedible trophy or hidelike nature and properly tagged with a Wyoming interstate game tag.

(ii) The wild bison was legally harvested by a nonresident and is tagged with a Wyoming interstate game tag.

Section 17. Hunting Regulations.

(a) **Shooting Hours.** Shooting hours for the hunting of wild bison shall be from one-half (1/2) hour before sunrise to one-half (1/2) hour after sunset.

(b) **Bag and Possession Limits.** The bag and possession limit for wild bison shall be one (1) wild bison per license. No person who is issued a wild bison hunting license and who harvests a wild bison after January 31, 2001, shall be eligible to apply for or receive a hunting license for wild bison in any future year.

(c) **Open Areas, Season Dates and Limitations.**

(b) "Cub" means any black bear less than one (1) year old.

(c) "Immediately" means following the observation of a grizzly bear using a bait, the person registering the bait, the person placing the bait or the person hunting over the bait shall report, without delay, said use to the Wyoming Game and Fish Department. Immediately also means any person taking a grizzly bear shall report, without delay, to the Wyoming Game and Fish Department in accordance with Section 12 of this regulation.

(d) "Mortality" means any legal or illegal human caused female black bear death, excluding female black bears taken by the Department, known female natural mortalities, and accidental female black bear deaths.

(c) Registering Kills. Hunters taking a black bear shall retain the pelt and skull from each black bear taken for registration purposes. Even if the skull is damaged, it shall accompany the pelt. Visible external evidence of sex shall remain naturally attached to the pelt. Within three (3) days, (seventy-two (72) hours), after taking a black bear, the licensee shall present the pelt and skull to a district game warden, district wildlife biologist, or Department personnel at a Game and Fish Department Regional Office during business hours for registration. The pelt and skull shall be presented in an unfrozen condition in order to allow collection of two (2) premolar teeth to be utilized to determine the age of the black bear and to allow examination of the pelt to determine the sex of the black bear. At the time of registration, the licensee shall furnish the Department the location of the site of kill to include section, township and range, or UTM coordinates.

(i) Any person who makes a false statement on the registration form regarding the date the black bear was taken or the hunt area in which it was taken shall be in violation of this regulation. Such violation shall be punishable as provided by Title 23, Wyoming statutes for violation of Commission regulations.

Section 5. Registration, Number, Placement, Removal and Identification of Baits on Federal or State Lands. Bait sites that are not renewed during the preference period shall be available for registration beginning April 1.

(ii) A person who registers a bait site(s) for the first time shall only register in person or by a representative of the applicant beginning April 1. Applications for bait site registration shall be accepted only if a bait site location is still available. Following the preference period, first time registration of a bait site shall be accepted on a first come, first served basis.

(iii) A person shall not change a registered bait site location during the calendar year for which the bait site was approved by the Department.

(iv) A bait site shall not be transferred to another person in the same calendar year in which the bait site was registered.

(v) Bait site(s) registration shall be valid for the calendar year in which the site(s) was registered.

(vi) Prior to placement of a bait(s), the bait site(s) registration shall be approved by the Department.

** Of the 267 hunters that harvested, only 259 reported their total days of effort and some reported up to 150 days, resulting in a Department estimate of days to harvest.
