Archers must comply with the regulations established for the regular hunting season, including open season dates.

ARTIFICIAL LIGHT FOR HUNTING PROHIBITED; EXCEPTION

No person shall take any wildlife with the aid of or by using any artificial light or lighting device except as provided by statute and Commission regulation. Predatory animals may be taken with the aid of an artificial light or lighting device, including thermal or infrared imaging or other light imaging by:

- A landowner, resident manager or person with the landowner's or a resident manager's written permission to take predatory animals, on land under the landowner's control for the protection of their property.
- Any person taking a predatory animal on public or state land is subject to limitations established by the Commission.

It is prima facie evidence of a violation if a person uses an artificial light in an area that may be inhabited by wildlife while having in their possession and control any device for taking wildlife.

This shall not prohibit the hunting on foot of raccoon with the aid of a handlight, provided the hunter is accompanied by a raccoon hunting dog and, if hunting on private land(s), has the written permission of the landowner or their agent.

- Any person hunting predatory animals on public land with an artificial light or lighting device, thermal or infrared imaging or other light imaging device shall display an activated infrared (IR) strobe beacon on their person visible from at least one hundred (100) yards in every direction. You will be asked to provide the band number as well as the location, date and how you recovered the bird. Your contact information will be requested in case there are any questions. The U.S. Geological Survey's Patuxent Bird Banding Lab will send you a certificate of appreciation that includes information about the sex, age and species of bird, and where and when it was banded. You may keep the band. ***Please note: Even if the band you recover is inscribed with a 1-800 number, as of July 2, 2017, you can only report it at www.reportband.gov.***

CHECK STATIONS

Every hunter, angler or trapper entering or leaving areas for which check stations have been established shall stop and report at the check station if the check station is on the hunter's, angler's or trapper's route to and from the hunting or fishing area. ***This requirement applies even if the person does not have wildlife in possession.*** Game and fish licensees shall produce their licenses, permits or stamps as required by regulation for any game animals, game birds, fish or furbearing animals in their possession for inspection upon request by any authorized department representative.

CLOSED AREAS

All areas within the state of Wyoming not opened by specific order of

the Commission shall be closed to the taking of game animals, furbearing animals and game birds.

CLOTHING REQUIREMENT

Hunters Required to Wear Fluorescent Orange or Fluorescent Pink Clothing

The wearing of fluorescent orange or fluorescent pink clothing while hunting small game and game birds is recommended as a safety measure and is required when hunting pheasants on Department Wildlife Habitat Management Areas or on Bureau of Reclamation Withdrawal Lands bordering and including Glendo State Park. Fluorescent orange camouflage or fluorescent pink camouflage are legal.

CROW SEASON

The entire state of Wyoming shall be open to the taking of crows from November 1 through December 31 and from January 1 through February 28. No hunting license is required to hunt crows. Crows may be taken by use of firearms, bow and arrow, and falconry. There is no bag limit. While there is a hunting season for crows, ravens may not be hunted. The best method of distinguishing between the two species is the shape of the tail while in flight. The crow has a square tail while the raven has a wedge-shaped tail (see diagram).

DISABLED HUNTER INFORMATION

Contact the Cheyenne Headquarters or any Department Regional Office for specific information.

DUPLICATE AND REPLACEMENT LICENSE ISSUED UPON LOSS OR DESTRUCTION OF ORIGINAL; PURCHASE AND FEES

When any license issued has been lost or destroyed, the licensee may secure a duplicate or replacement of the original license from the Cheyenne Headquarters, any Department Regional Office or designated license selling agents. A duplicate license shall be issued if the original license **contained a carcass coupon**. A replacement license shall be issued if the original license did **not contain a carcass coupon**. The Department shall charge a fee of seven dollars (\$7) for each duplicate or replacement license.

EMERGENCY CLOSURES

The Commission may institute an emergency closure by regulation to shorten the season in any area at any time if a harvest quota is reached or if an emergency arises warranting the closure. Should a closure become necessary after the season opens, no refunds will be given for unused licenses.

FALCONRY LICENSES

Licenses to hunt with trained raptors may be purchased from the Cheyenne Headquarters, Department Regional Offices and designated license selling agents. The license entitles the holder thereof to hunt, pursue and kill game birds and small game animals with the use of trained raptors and in accordance with Commission regulations. Persons holding a proper falconry license may hunt, pursue and kill game birds without distinction of sex in any hunt area in which the falconry season is open for the taking of game birds. Persons hunting with trained raptors must also hold a valid hunting license for the species being hunted. If hunting sage grouse, an annual sage grouse permit is required.

FEDERAL MIGRATORY BIRD HUNTING AND CONSERVATION STAMP

(Federal Duck Stamp)

Federal law requires each waterfowl hunter sixteen (16) years of age or older to purchase and carry a valid Federal Migratory Bird Hunting and Conservation Stamp (Federal Duck Stamp) signed in ink across the face. Hunters possessing an electronic Federal Duck Stamp are exempt from this signature provision. This stamp is required to take ducks, geese and mergansers. However, a Federal Duck Stamp is not required to take mourning doves, sandhill cranes, coots, snipe, rails or crows. Federal duck stamps expire June 30 of each year. The Federal Duck Stamp can be purchased on the Department website, duckstamp.com, usps.com, at most post offices and some outdoor recreation stores.

FIREARM CALIBERS AND LEGAL WEAPONS FOR GAME BIRDS AND SMALL GAME

Except as provided below, game birds, excluding wild turkey, blue and ruffed grouse, may only be taken by a center-fire or muzzle-loading shotgun not larger than ten (10) gauge plugged to admit no more than one (1) shell in the chamber and two (2) shells in the magazine. Wild turkey may only be taken by any shotgun, center-fire firearm, .17 HMR or larger rimfire firearm with an overall cartridge length greater than one (1) inch, any muzzle-loading firearm, or any archery equipment. Blue grouse, ruffed grouse and small game may be taken in any manner except as prohibited by Wyoming Statute.

HARVEST SURVEY

Each year the Department and its contractors send harvest survey questionnaires to a sample of sportspersons, primarily through email and postal mail. Since a person can hunt multiple species in Wyoming, some sportspersons may be asked to complete more than one harvest survey questionnaire. Your reply provides critical data the Department uses to evaluate the past hunting season and set future hunting seasons. Even if you did not hunt, we need to hear from you to accurately track hunter effort. We ask that you complete any harvest survey questionnaires sent to you by the Department or its contractors. Your time and assistance are much appreciated.

HUNTER SAFETY/TEMPORARY EXCEPTION

Except as otherwise provided, no person born on or after January 1, 1966, may take wildlife by the use of firearms on land other than that of their own family, unless that person can demonstrate they have obtained a certificate of competency and safety in the use and handling of firearms. Attendance and successful completion of a hunter safety course offered by an association or governmental agency approved by the Commission satisfies the requirements of this section.

- A person who has not received a certificate of competency and safety in the use and handling of firearms may apply to the Department for a special authorization to take wildlife with the use of a firearm while being accompanied by a person acting as a mentor. A special authorization shall be valid for one (1) year from the date of issue and shall be in the possession of the recipient at all times while in the field. The application process may be completed on the Department website. Any person acting as a mentor shall be at least eighteen (18) years of age, shall possess a valid hunting license, and shall demonstrate they have successfully completed a hunter safety course. A mentor shall not provide supervision for more than one (1) person at a time in the field, other than immediate family members, and shall accompany the mentee at all times to provide constant supervision.
- A person under fourteen (14) years of age who has not yet received a hunter safety certificate may take small game and game birds while

PRECAUTIONS WHEN HUNTING IN AREAS OCCUPIED BY GRIZZLY BEARS

Hunters and anglers are reminded grizzly bears occupy many areas in and around the Bridger-Teton, Shoshone and Caribou-Targhee National Forests in northwest Wyoming. Information about human safety and proper storage of food and other attractants in occupied grizzly habitat is available from the Cheyenne Headquarters, Department Regional Offices, U.S. Forest Service Offices and the Department website. Regulations concerning food/carcass storage in occupied grizzly habitat can be obtained from the U.S. Forest Service. Report all conflicts with grizzly bears to the nearest Department Regional Office.

PROHIBITED ACTS

It is Illegal to

- Shoot or attempt to kill any wildlife from any public road or highway. No person shall fire any firearm from, upon, along or across any public road or highway. No person shall knowingly fire any rifle from the enclosed lands of one person onto or across the enclosed lands of another without the permission of both persons.
- Use any dog to hunt, run or harass any big or trophy game animal, protected animal or furbearing animal except as otherwise provided by statute. The Commission shall regulate the use of dogs to take mountain lions and bobcats during hunting or trapping seasons.
- Use any aircraft with the intent to spot, locate and aid in the taking of any big game animal from August 1 through January 31 of the following calendar year. Additionally, no person shall use any aircraft to spot, locate and aid in the taking of any trophy game animal during any open season. Nothing in this Section shall apply to the operation of an aircraft in a usual manner where there is no attempt or intent to

locate any game animal, such as aircraft used for the sole purpose of passenger transport.

- Take and leave, abandon or allow the edible portion of any game bird, game fish or game animal (except trophy game animal) to intentionally or needlessly go to waste.
- Transport illegally taken wildlife across state lines; such transportation is a violation of the Federal Lacey Act.
- Abandon meat from a big game animal or game bird at a meat processing plant. Unless there is an express agreement between the processing plant and the person providing otherwise, any meat from a big game animal or game bird left at a meat processing plant for more than forty-five (45) days is prima facie evidence of a violation if written notice of the expiration of time has been attempted by the processing plant in accordance with rules and regulations promulgated by the Commission.
- Carry a firearm with a cartridge therein, or take any wildlife, while intoxicated or under the influence of any controlled substance.
- Harass, pursue, hunt, shoot or kill any Wyoming wildlife that requires a license or permit to take, is protected under W.S. 23-1-101(a)(ix) and (x) or is classified as threatened or endangered by federal wildlife regulations, with, from or by use of any flying machine, automotive vehicle, trailer, motor-propelled wheeled vehicle or vehicle designed for travel over snow. The Commission may exempt handicapped hunters from any of these provisions.
- Shoot waterfowl from a boat under power or sail.

PROTECTED BIRDS

Migratory birds that may not be taken, possessed, transported, sold or bartered include all migratory birds as defined and protected under federal law including, but not limited to, whooping cranes, bitterns, grebes, herons, egrets, kingfishers, loons, pelicans, seagulls, shorebirds, eagles, falcons, hawks and owls. Any insectivorous birds and songbirds not otherwise classified are protected. Trumpeter swans are also protected in Wyoming.

SAGE GROUSE HUNTING PERMIT

A sage grouse hunting permit shall be required of any licensed hunter who participates in hunting sage grouse. The sage grouse hunting permit shall be in possession of any person while hunting sage grouse, and shall be immediately produced for inspection upon request from any authorized Department representative. The permit shall be available at headquarters, regional offices and the department website.

SHIPPING GAME ANIMALS AND GAME BIRDS OUT OF STATE

Except as otherwise exempt by state statute, no game animal or game bird, or any part thereof, shall be shipped or transported from the state except by the person who harvested the animal, and in possession of the proper license, stamp and carcass coupon as required, or unless the amount does not exceed twenty-five (25) pounds and is properly tagged with a Wyoming interstate game tag. Not more than twenty-five (25) pounds from any one (1) big or trophy game animal may be exported from the state unless the part to be exported from the state is of a nonedible trophy or hidelike nature and properly tagged with a Wyoming interstate game tag or the big or trophy game animal was legally harvested by a nonresident and is tagged with a Wyoming interstate game tag.

SHIPPING GAME ANIMALS AND GAME BIRDS WITHIN WYOMING

Except as otherwise exempt by state statute, no person shall ship, transport or receive for shipment or transportation within Wyoming any game animal, game bird, or any part thereof, unless tagged with a Wyoming interstate game tag, or unless the transportation of a big or trophy game animal is by a person in possession of a proper carcass coupon signed and dated by the person who harvested the animal, or the transportation of game birds or small game is by a properly licensed hunter in possession of not more than the daily bag or possession limit.

SKY-BUSTING AND RETRIEVAL OF DOWNED BIRDS

It is unethical and disrespectful to your fellow hunters to shoot at geese, ducks and other game birds beyond reasonable killing ranges. The law requires that you make a reasonable effort to retrieve and reduce to possession any wounded or crippled migratory game birds you have shot. If you hit a migratory game bird and see it fall or land in a location you can legally access, then you have an obligation to search for the downed bird and attempt to retrieve it. If a crippled migratory game bird lands on adjoining private land, you have an obligation to seek that landowner's permission to retrieve the downed bird.

TAKING PREDATORY ANIMALS AND PREDACIOUS BIRDS

Predatory animals and predacious birds may be taken without a license.

VEHICLE RESTRICTIONS ON FEDERAL LAND

Sportspersons are advised that many areas of National Forest and Bureau of Land Management lands are subject to travel and vehicle use limitations to protect resources. Maps and additional information regarding these limitations are available at U.S. Forest Service, Bureau of Land Management and other agency offices near these public lands.

WATERCRAFT RESTRICTIONS

Waterfowl hunters should be aware certain bodies of water within Wyoming have watercraft restrictions on them. For a list of waters that have restrictions, please check the watercraft or fishing regulations or check with your local Department Regional Office.

WILDLIFE VIOLATOR COMPACT

Wyoming is a member of the Wildlife Violator Compact. The Compact enables a violator from any member state to accept a wildlife citation and proceed on their way without being required to post an appearance bond unless the violation requires **MUST APPEAR** and **NO BOND ACCEPTED**. The Compact provides for the suspension of wildlife license privileges in the home state of any person whose license privileges have been suspended by a participating state. If you have had your privileges suspended in any of the participating states, you may lose your privileges in Wyoming, in addition to all the participating Compact states. Additional information about the Compact can be obtained by contacting the Wildlife Law Enforcement Coordinator at (307) 233-6413.

WIND RIVER RESERVATION

Only non-Indian owned, fee title lands are open to the taking of wildlife with a State of Wyoming license. Land status is complicated and lawful access must be investigated thoroughly. Sportspersons are advised it is their responsibility to determine land status prior to entering these areas.

WYOMING STATE PARKS

Wyoming State Parks allow limited hunting opportunities at specific locations and may have additional restrictions and regulations for access and hunting. Sportspersons are encouraged to contact Wyoming State Parks at wyoparks.wyo.gov or contact the individual State Park Office for additional information prior to hunting.

WATERFOWL HUNTING AND BAITING INFORMATION**WHAT IS LEGAL?***You can hunt waterfowl on or over or from:*

- Standing crops or flooded standing crops, including aquatic plants.
- Standing, flooded, or manipulated natural vegetation.
- Flooded harvested croplands.
- Lands or areas where grains have been scattered solely as the result of a normal agricultural planting, harvesting or post-harvest manipulation.
- Lands or areas where top-sown seeds have been scattered solely as the result of a normal agricultural planting, or a planting for agricultural soil erosion control or post-mining land reclamation.
- A blind or other place of concealment camouflaged with natural vegetation.
- A blind or other place of concealment camouflaged with vegetation from agricultural crops, provided your use of such vegetation does not expose, deposit, distribute or scatter grain or other feed.
- Standing or flooded standing crops where grain is inadvertently scattered solely as the result of hunters entering or leaving the area, placing decoys, or retrieving downed birds. Hunters are cautioned that while conducting these activities, any intentional scattering of grain will create a baited area.

THE HUNTER'S RESPONSIBILITY*As a waterfowl hunter, you are responsible for determining whether your proposed hunting area is baited. Before hunting, you should:*

- Familiarize yourself with Federal and State waterfowl hunting regulations.
- Ask the landowner, your host or guide, and your hunting partners if the area has been baited and inspect the area for the presence of bait.
- Suspect the presence of bait if you see waterfowl feeding in a particular area in unusually large concentrations or displaying a lack of caution.
- Look for grain or other feed in the water, along the shore, and on the field. Pay particular attention to the presence of spilled grain on harvested fields and seeds planted by means of top sowing.
- Confirm that scattered seeds or grains on agricultural lands are present solely as the result of a normal agricultural planting, normal agricultural harvesting, normal agricultural post-harvest manipulation, or normal soil stabilization practice by consulting the Cooperative Extension Service.
- Abandon the hunting site if you find grain or feed in an area and are uncertain about why it is there.

EXCERPTS FROM TITLE 50, CODE OF FEDERAL REGULATIONS, PART 20.21*No persons shall take migratory game birds:*

By the aid of baiting, or on or over any baited area, where a person knows or reasonably should know that the area is or has been baited. However, nothing in this paragraph prohibits:

- The taking of any migratory game bird, including waterfowl, coots, and cranes, on or over the following lands or areas that are not otherwise baited areas—
 - Standing crops or flooded standing crops (including aquatics); standing, flooded, or manipulated natural vegetation; flooded harvested croplands; or lands or areas where seeds or grains have been scattered solely as the result of a normal agricultural planting, harvesting, post harvest manipulation or normal soil stabilization practice;
 - From a blind or other place of concealment camouflaged with natural vegetation;
 - From a blind or other place of concealment camouflaged with vegetation from agricultural crops, as long as such camouflaging does not result in the exposing, depositing, distributing or scattering of grain or other feed; or,
 - Standing or flooded standing agricultural crops where grain is inadvertently scattered solely as a result of a hunter entering or exiting a hunting area, placing decoys, or retrieving downed birds.
- The taking of any migratory game bird, except waterfowl, coots, and cranes, on or over lands or areas that are not otherwise baited areas, and where grain or other feed has been distributed or scattered solely as the result of manipulation of an agricultural crop or other feed on the land where grown, or solely as the result of a normal agricultural operation.

WHAT IS ILLEGAL?*Some examples of areas where you cannot hunt waterfowl include:*

- Areas where grain or seed has been top-sown and the Cooperative Extension Service does not recommend the practice of top sowing.
- Crops that have been harvested outside of the recommended harvest dates established by the Cooperative Extension Service (including any subsequent post-harvest manipulations).
- Unharvested crops that have been trampled by livestock or subjected to other types of manipulations that distribute, scatter, or expose grain.
- Areas where grain is present and stored, such as grain elevators and grain bins.
- Areas where grain is present for the purpose of feeding livestock.
- Freshly planted wildlife food plots that contain exposed grain.
- Croplands where a crop has been harvested and the removed grain is redistributed or “added back” onto the area where grown.

These examples do not represent an all-inclusive list of waterfowl baiting violations.

SECTION 2. HUNTING REGULATIONS

- a. Federal Regulations. 50 CFR 20.21(i) revised as of August 8, 2019, which do not include any later amendments or editions of the incorporated matter, governing the baiting of migratory game birds, are adopted as regulations of the Wyoming Game and Fish Commission. Violations of these federal statutes and regulations shall be violations of the Commission regulations. A copy of Title 50 of the Code of Federal Regulations can be viewed at the Cheyenne Headquarters, Department Regional Offices or on the U.S. Fish and Wildlife Service website (www.fws.gov).
- b. Federal Migratory Bird Hunting and Conservation Stamp (federal duck stamp). A federal duck stamp is required for persons sixteen (16) years of age and older to hunt ducks, geese and mergansers. A federal duck stamp is not required to hunt coots, sandhill cranes, crows, mourning doves, rail or snipe. Federal duck stamps shall be signed in ink across the face of the stamp and shall be in possession of the hunter while in the field. Hunters possessing an electronic federal duck stamp are exempted from this signature provision during the time their electronic federal duck stamp is valid.
- c. HIP Permit. Each licensed hunter who hunts migratory game birds shall complete a current Wyoming validation for the National Migratory Bird Harvest Information Program (HIP) and shall obtain a Wyoming HIP permit. This requirement also applies to holders of pioneer and lifetime hunting licenses. Each licensed hunter engaged in the act of hunting doves, ducks, geese, mergansers, coots, rails, cranes or snipe shall be in possession of a Wyoming HIP permit and shall immediately produce said permit upon request from any authorized Department representative. HIP permits shall be signed in ink across the face of the permit and shall be in possession of the hunter while in the field. HIP permits expire on June 30 each year. HIP permits are not transferrable to other states. A separate HIP permit is required from each state in which you hunt. Wyoming HIP permits shall be available only on the Department website. Youths under 14 are not required to obtain a HIP permit if they do not hold a valid game bird license.
- d. No person shall take migratory game birds:
- With a trap, snare, net, rifle, pistol, swivel gun, shotgun larger than 10 gauge, punt gun, machine gun, fishhook, poison, drug, explosive or stupefying substance;
 - With any shotgun that can hold more than three (3) shells in the magazine and chamber combined, except during the light goose conservation order (refer to Section 7 of this regulation);
 - From a sink box or any low floating device, which has a depression to hide a person underneath the water's surface;
 - From or by means of any motorboat or sailboat unless the motor has been completely shut off or sail furled, and the boat's progress therefrom has ceased;
 - By the use or aid of live decoys. All live, tame or captive ducks and geese shall be removed for a period of ten (10) consecutive days prior to hunting, and shall be confined within an enclosure which substantially reduces the audibility of their calls and totally conceals such birds from the sight of migratory game birds;
 - By the use of records or tapes of migratory bird calls or sounds, or electronically amplified imitations of bird calls, except during the light goose conservation order;
 - By driving, rallying or chasing migratory game birds with any motor driven land, water or air conveyance or any sailboat.
