We are indebted to the falconers who shared valuable information about their falconry experience by completing a survey questionnaire.

Executive Summary

Each year the Wyoming Game and Fish Department (WGFD) surveys falconers to quantify harvest, falconer success, and falconer effort. This information helps the Game and Fish manage and quantify harvest of game birds and small game by falconers. The harvest statistics presented in this report were based on data collected from 37 responses to a falconry survey sent to 64 falconers. Completion of the survey is voluntary, except that falconers are required to report sage-grouse hunting activity. No extrapolation has been made to account for possible hunting by falconers who did not complete the survey. A total of 92 sage grouse, 24 sharp-tailed grouse, 2 gray partridge, 15 pheasants, 9 ducks, and 30 cottontail rabbits were reported to have been harvested with falcons in Wyoming during the 2024-2025 hunting season.
