This report was completed through a partnership with the Wyoming Game and Fish Department and the Wyoming Survey and Analysis Center at the University of Wyoming. As always, we are indebted to the many sportspersons who shared valuable information about their hunting experience by completing a survey questionnaire.

Executive Summary

Each year the Wyoming Game and Fish Department surveys elk hunters to quantify harvest, hunter success, and hunter effort. This information helps the Game and Fish manage elk populations and plan next year's hunting seasons. The harvest statistics presented in this report were estimated based on 25,355 responses to a voluntary harvest survey sent to 60,925 license holders and extrapolated to represent the 84,088 licenses issued. We estimate 30,568 elk were harvested in Wyoming during the 2025 hunting season.

Table 3: Harvest Statistics by Hunt Area

Summary of estimated elk harvest statistics for each Hunt Area and license Type for the 2025 hunting season in Wyoming. "Cross area" indicates licenses valid in or from other Hunt Areas; for Hunt Area 77, "Other" indicates licenses issued for other areas. "GEN" is General licenses. "Active Lics" (rows above dividing line) excludes licenses that were unused. "Active Htrs" (rows under dividing line) excludes hunters who did not hunt. "Bull" is any branch-antlered adult male, which excludes spikes. The "Active Lics/Htrs" column does not always sum because the top rows labeled with a license Type count licenses, the bottom rows labeled with "Total", "Resident", or "Nonresident" count hunters, and some hunters hold multiple licenses.

Table 4: Harvest Statistics by Herd Unit

Summary of estimated elk harvest statistics for each Herd Unit and license price group for the 2025 hunting season in Wyoming. "Price" is separated into either Full (i.e., Full-price limited quota licenses; Types 1-5, 9), Reduced (i.e., Reduced-price limited quota licenses; Types 6-8), or General. "Active Lics" (rows above dividing line) excludes licenses that were unused. "Active Htrs" (rows under dividing line) excludes hunters who did not hunt. "Bull" is any branch-antlered adult male, which excludes spikes. The "Active Lics/Htrs" column does not always sum because the top rows labeled with a price group count licenses, the bottom rows labeled with "Total", "Resident", or "Nonresident" count hunters, and some hunters hold multiple licenses.

Table 5: Harvest Statistics by Nonresident General Region

Summary of estimated elk harvest statistics for each Nonresident General License Region for the 2025 hunting season in Wyoming. Includes only hunting activity associated with Nonresident General licenses, even though Resident General and/or limited quota licenses are also valid in each Region. "Active Lics" excludes licenses that were unused. "Bull" is any branch-antlered adult male, which excludes spikes.

Table 8: Confidence Intervals for Harvest by Herd Unit

Estimated elk harvest by Herd Unit including 90% confidence interval (CI) for the 2025 hunting season in Wyoming. "Bull" is any branch-antlered adult male, which excludes spikes. No CI is provided if 0 animals were reported harvested.

Table 9: Survey Effort and Response Rate by Hunt Area and License Type

Survey effort and response rate for each Hunt Area and license Type for which licenses were issued. General licenses are included under the county of license sale for Residents (R) and Nonresident (NR) General Region for Nonresidents. "Response Target" is the number of responses needed to meet sample size targets. "Surveyed" is the number of licenses randomly selected to receive a survey and is greater than "Response Target" because response rates are < 100%. "Responses" is the number of licenses for which a usable survey response was received.
