

WYOMING GAME AND FISH DEPARTMENT

Collectible Conservation Stamp

ART SHOW

FEATURING THE WESTERN TIGER SALAMANDER

RULES

ELIGIBILITY

The Wyoming Game and Fish Department encourages artists to participate and learn more about Wyoming wildlife. Employees of Game and Fish, their immediate family members, Wyoming Game and Fish Commissioners or their immediate family members are not eligible. All entrants must complete an entry form and artist's data sheet.

SUBJECT MATTER

All artwork must feature the Western tiger salamander (*Ambystoma mavortium*). Each painting will be carefully evaluated by Game and Fish biologists for anatomical accuracy of the animal and ecological correctness of any habitat. Judges are instructed to ensure any habitat illustrated depicts the species in its natural habitat and that the habitat is found in Wyoming. Entries determined to be biologically inaccurate will be ineligible to win a monetary award, and may only be eligible to win an Honorable Mention. For this year's species, the biological judge will be looking at the information listed below.

ABOUT THE SPECIES

SIZE/FEATURES

Adults have a long body, 4 stout legs, a broad rounded head with a large mouth, 2 protruding eyes, and a tail that makes up approximately 40% of their total body length. Salamander skin is smooth, moist, and lacks scales. Eleven to fourteen costal grooves (rib-like indentations) are very apparent along the sides of this species. Dorsal skin color can be black, dark olive, or gray with irregular yellow, cream, or pale olive blotches. Sometimes pale blotches can be so large as to make it look like an individual has a pale base color with just a few dark irregular stripes. Different subspecies of Western Tiger Salamander can vary significantly in the amount and type of blotch patterns, ranging from stripes to irregular spots.

HABITAT

Western tiger salamanders are found throughout Wyoming below elevations of 10,000 feet. They are also widely distributed across western North America.

Western tiger salamanders need both aquatic and terrestrial habitat types to carry out their life cycle. They live in most terrestrial habitat types in Wyoming, as long as they have nearby aquatic habitats for breeding. As eggs and larvae, salamanders live in a variety of water bodies with still or slow-moving water, including beaver ponds, alpine kettles, wetlands, and even human-made structures like water troughs and sewage ponds. Juveniles and adults spend much of their time on land, but they tend to stay in moist areas like rodent burrows or leaf litter to avoid drying out. Western Tiger Salamanders are capable of crossing long distances of harsh, unsuitable habitat (dry land, snow, etc.) to reach breeding ponds in early spring.

FOOD

Western tiger salamanders are opportunistic and will eat a variety of foods, depending on what is available. Larvae feed on aquatic invertebrates, amphibian eggs and larvae, snails, and leeches. Adults eat a variety of invertebrates, and have been known to eat small mammals or reptiles.

OTHER

This is the only salamander found in Wyoming!

They can also migrate!

ORIGINAL ARTWORK

The artwork must be the artist's original creation. Any artwork recognized as a copy will be ineligible for a prize. For purposes of this competition an original is defined as follows: A copy of another's artwork is not acceptable, whether the work copied is the actual artwork or a photograph of it published in a magazine or book, posted on a website and whether or not the size is different. A direct copy of a postcard or other published or posted photograph, even with the photographer's permission, is not acceptable, on the grounds that the composition and color scheme are another's. It is acceptable to work from your own photograph, for in that case you have decided upon the composition, and chosen the lighting, which decided the color scheme. Within these concepts, it is left to the conscience of the artist, whether the work submitted is their own work, or the creative inspiration of someone else. Work found to violate this policy will be immediately disqualified.

MEDIUM

Artwork may be multi-color or black and white. It must consist of a two dimensional design, meaning it must be some form of ink, pencil or paint. Photographs, sculptures or other three dimensional submissions will not be accepted.

FORMAT

Two-dimensional art only. Image size of entry must be 18 inches in height by 24 inches in width, drawn in a horizontal format. Artwork submitted on stretched canvas can be no more than 3/4-inch thick. Final stamp size is 2½ inches horizontally and 1½ inches vertically.

SUBMISSION PROCEDURES

The signed entry form and artist's data sheet must be sent with the entry.

ENTRY FEE: A non-refundable \$30 entry fee (U.S. funds) must accompany the artwork, entry form and artist's data sheet. Cash, money order or check in U.S. funds drawn on a U.S. bank made payable to "Wyoming Game and Fish Department." ***Entries must arrive unframed. Any artwork may be signed and all artwork to be sold must be signed. Matted artwork must be done with a single 22 inch by 28 inch (outside dimensions) white mat which is 2 inches (per side).*** For paintings submitted on masonite, clayboard or stretched canvas, matting is optional. If desired, the artist may have his or her artwork protected with a clear acetate or plastic. If an artist chooses to have their

artwork wrapped they should note that reflections from wrinkled plastic coverings can make it difficult for the judges to see your work and wrapping may need to be removed during the judging process. If removal is necessary, it will not be reapplied prior to return shipping. Please ensure your artwork is dry (pastels should be treated with a fixative) before plastic wrapping and shipping or delivering. Game and Fish will not be held liable for any damage.

Each entry is to be securely wrapped in a RE-USABLE CONTAINER not to exceed 84 inches (length plus girth). A recommended size package/box to fit the maximum 22x28x1½ inches piece of artwork could measure 23x29x4 inches and still be within the total 84-inch limitation. Carriers for our return shipment consider items over the 84-inch limitation oversized. Do not use Styrofoam peanuts as packing material. No wooden crates allowed. Artwork will be returned to the artist in the same packaging as originally shipped. Game and Fish will not be liable for loss or damage during shipment to or from Game and Fish Headquarters.

All entries will be promptly processed upon receipt. Packaged artwork must be shipped or hand-delivered to:

***Collectible Conservation Stamp Competition

JUDGING
