* Actual downloads exceed WG&F sales data.

Note: Harvest estimates for limited quota licenses allowing antlered harvests are based off antlered harvests only while estimates for limited quota licenses allowing only antlerless harvests are based off adult antlerless harvests only. Harvest estimates for general licenses are based off antlered harvest only. The statewide harvest totals shown in Table III include all harvests.

Note: License level confidence intervals are based on estimated total license success rates (harvests / number sold).

Note: Success 90% margin of error was less than $\pm 10\%$ for 24 of 25 (96%) limited quota licenses where a non-census sample was taken. Success margin of error is not applicable (-) for the 48 limited quota licenses where all license holders were sampled (those limited quota license types with 50 or less licenses available, or where all license holders needed to be sampled to achieve the target number of usable survey responses). The number of usable surveys was at least 26% of sales for 34 of 41 deer general license strata.

* Actual downloads exceed WG&F sales data.

Note: Harvest estimates for limited quota licenses allowing antlered harvests are based off antlered harvests only while estimates for limited quota licenses allowing only antlerless harvests are based off adult antlerless harvests only. Harvest estimates for general licenses are based off antlered harvest only. The statewide harvest totals shown in Table VI include all harvests.

Note: License level confidence intervals are based on estimated total license success rates (harvests / number sold).

Note: Success 90% margin of error was less than $\pm 10\%$ for 54 of 57 (95%) limited quota licenses where a non-census sample was taken. Success margin of error is not applicable (-) for the 94 limited quota licenses where all license holders were sampled (those limited quota license types with 50 or less licenses available, or where all license holders needed to be sampled to achieve the target number of usable survey responses). The number of usable surveys was at least 26% of sales for 30 of 37 deer general license strata.
