### What watercraft must be registered?

All motorboats powered by propulsion machinery of any type and operated on the waters of this state shall be registered (to include electric trolling motors). No person shall, operate nor shall the owner permit the operation of any motorboat, unless the motorboat is numbered in accordance with state law, applicable federal law, or a federally approved numbering system of another state; the certificate of number issued for the motorboat is in full force and effect; and, the identifying number set forth in the certificate of number is displayed on each side of the bow of the motorboat.
