* Actual downloads exceed WG&F sales data.

Note: Harvest estimates for licenses allowing antlered harvests are based off antlered harvests only while estimates for licenses allowing only antlerless harvests are based off adult antlerless harvests only. The statewide harvest totals shown in Table I include all harvests.

Note: License level confidence intervals are based on estimated total license success rates (harvests / number sold).

Note: Success 90% margin of error was less than or equal to $\pm 10\%$ for 95 of 117 (81%) limited quota licenses where a non-census sample was taken. Success margin of error not applicable (-) for the 63 limited quota licenses where all license holders were sampled (those limited quota license types with 50 or less licenses available, or where all license holders needed to be sampled to achieve the target number of usable survey responses).
