## About Whiskey Mountain Conservation Camp

Whiskey Mountain Conservation Camp is located near Trail Lake, approximately ten miles southeast of Dubois, Wyoming. The camp, located on historic bighorn sheep winter range, is situated on Torrey Creek about one mile from the Fitzpatrick Wilderness Trailhead. There is a good possibility of seeing lots of wildlife, such as moose, deer, osprey, and bighorn sheep. The scenery is beautiful, so consider packing binoculars or a camera to capture your amazing surroundings. The road into camp is a dirt road, but most passenger vehicles can navigate it without any problems.

## Other Considerations

### Phone Calls

There is no cell phone service at camp; however, there is strong wi-fi. You should enable "wi-fi calling" on your phone before arriving at camp. There is a landline available for emergencies.

### Dietary Restrictions

All meals are buffet-style and served in the main dining hall. If anyone in your family has particular dietary concerns, please be sure they are listed in your registration process so our caterer can accommodate them.

### Cabin Assignments

Participants will stay in cabins with running water, heat and indoor toilet facilities, including showers. The beds are large cots. Linens, blankets, and pillows are not provided, so you will need to bring your own pillows, sleeping bags, or sheets/blankets. Each registered family group will be staying in its own assigned cabin. Due to capacity restrictions, however, families with more than five members may be assigned to more than one cabin. If this happens, at least one adult must stay in each place with children under eighteen. Child care is not provided by camp staff. Participants must be age ten and up to attend.
