

STATEMENT OF REASONS

CHAPTER 5

ANTELOPE HUNTING SEASONS

W. S. § 23-1-302 directs and empowers the Commission to fix seasons and bag limits, open, shorten or close seasons on any species or sex of wildlife except predatory animals, predacious birds, protected animals and protected birds.

The Department proposes to amend the Wyoming Game and Fish Commission Regulation Chapter 5, Antelope Hunting Seasons to establish annual hunting seasons, limitations and bag limits for the 2025 antelope hunting seasons. The Department sets antelope hunting seasons annually based on public input, annual harvest data, population monitoring data, individual herd unit objectives and ongoing habitat evaluations. The entire Chapter 5, Antelope Hunting Seasons regulation is open for public comment and may be modified through this rule making process.

At the time of this filing, the 2024 antelope harvest information is not yet available to the Department. Individual hunt area regular hunting season dates, special archery hunting season dates, hunt area limitations and license quotas may be adjusted after harvest data has been evaluated. Individual license types may be added, removed or modified for existing hunt areas.

The Department begins this rule making process by posting the final 2024 Chapter 5, Antelope Hunting Seasons regulation for public comment. Any additional proposed changes to regular hunting season dates, special archery hunting season dates, hunt area limitations, license types, numbers of limited quota licenses, hunt area boundary descriptions or modifications to other hunting provisions shall be made available for public comment on the Department website. An updated draft of the 2025 Chapter 5, Antelope Hunting Seasons regulation proposal shall be available at all in-person public meetings and through online Department presentations. All proposed edits to this regulation shall also be posted on the Department website in March for additional public comment.
