

CHRONIC WASTING DISEASE

Chronic wasting disease (CWD) can be transmitted from CWD-positive animal carcasses harvested by hunters that have not been properly disposed of. The majority of CWD-positive animals that are harvested appear completely normal and healthy. To minimize the possibility of transmission, Wyoming's regulations require deer, elk and moose hunters transport only the following items within Wyoming:

TRANSPORTING AND DISPOSING DEER AND ELK

TO MINIMIZE THE POSSIBILITY OF TRANSMISSION, WYOMING'S REGULATIONS REQUIRE DEER, ELK AND MOOSE HUNTERS TRANSPORT ONLY THE FOLLOWING ITEMS WITHIN WYOMING:

1 DEER, ELK AND MOOSE TAKEN IN WYOMING MAY BE TRANSPORTED WITHIN WYOMING TO A CAMP, PRIVATE RESIDENCE FOR PROCESSING, A TAXIDERMIST, A PROCESSOR OR A CWD SAMPLE COLLECTION SITE IN WYOMING, PROVIDED THE HEAD AND ALL PORTIONS OF THE SPINAL COLUMN REMAIN AT THE SITE OF THE KILL OR SUCH PARTS ARE DISPOSED OF IN ANY APPROVED LANDFILL OR APPROVED INCINERATOR IN WYOMING.

EDIBLE PORTIONS WITH NO PART OF THE SPINAL COLUMN OR HEAD

CLEANED HIDE WITHOUT THE HEAD ATTACHED

SKULL, SKULL PLATE OR ANTLERS THAT HAVE BEEN CLEANED OF ALL MEAT AND BRAIN TISSUE; TEETH

FINISHED TAXIDERMY MOUNTS

HUNTERS ARE REMINDED THEY MUST ABIDE BY THE EVIDENCE OF SEX, SPECIES AND HORN OR ANTLER DEVELOPMENT RETENTION REQUIREMENTS PER REGULATIONS. FOR MORE INFORMATION ON CARCASS DISPOSAL VISIT WGFD.WYO.GOV/CWD

CHRONIC WASTING DISEASE INFORMATION

Chronic wasting disease (CWD) is a fatal disease of the central nervous system in mule deer, white-tailed deer, elk and moose. Special regulations were adopted by the Wyoming Game and Fish Department to decrease the spread of the disease. Details about CWD, where it exists in Wyoming, and testing for the disease are provided on the Game and Fish website.

Scan this QR code for more information on CWD or to check your CWD sample results.

Most animals infected with CWD show no clinical signs early on, but as the disease progresses (> 1 year), animals will begin to show weight loss, reluctance to move, excessive salivation, droopy ears, increased drinking and urinating, lethargy and eventually death. Not all animals will show the typical signs of CWD. The majority of all hunter-harvested CWD-positive animals appear completely normal. The only way to know whether your harvested animal has CWD is to have it tested.

For information on the Wyoming CWD Management Plan visit wgfd.wyo.gov/cwd.

TRANSPORTATION AND DISPOSAL

of Deer, Elk and Moose Taken within Wyoming – Chronic Wasting Disease (CWD) Regulations

- A** Deer, elk and moose taken in Wyoming may be transported within Wyoming to a camp, a private residence for processing, a taxidermist, a processor, or a CWD sample collection site in Wyoming, provided the head and all portions of the spinal column remain at the site of the kill or such parts are disposed of in any approved landfill or approved incinerator in Wyoming.
- B** Except as provided above, only the following parts of any deer, elk or moose taken in Wyoming may be **transported in Wyoming**: edible portions with no part of the spinal column or head attached; cleaned hide without the head; skull or skull plate or antlers that have been cleaned of all meat and brain tissue; teeth; or finished taxidermy mounts.
- C** Only the following parts of any deer, elk or moose taken in Wyoming may be **transported to other states, provinces or countries**: edible portions with no part of the spinal column or head; cleaned hide without the head; skull or skull plate or antlers that have been cleaned of all meat and brain tissue; teeth; or finished taxidermy mounts. **Whole deer, elk and moose carcasses shall not be transported out of Wyoming.**
- D** Nothing in this section shall apply to the transportation or disposal of deer, elk and moose taken by any governmental agency or educational institution.

IMPORTATION

of Deer, Elk or Moose Taken From Outside of Wyoming

- A** Deer, elk or moose taken from within any other state, province or country may only be imported into Wyoming if carcasses are transported directly to a private residence for processing, to a taxidermist, to a processor or to a CWD sample collection site provided the head and all portions of the spinal column are disposed of in an approved landfill or incinerator.

The information provided in this brochure is a direct action of the Wyoming CWD Management Plan.
