Acknowledgements

This report was completed through a partnership with the Wyoming Game and Fish Department and the Wyoming Survey and Analysis Center at the University of Wyoming. As always, we are indebted to the many sportspeople who shared valuable information about their hunting experience by completing a survey questionnaire and/or checking their animal with WGFD personnel.

Executive Summary

Each year the Wyoming Game and Fish Department (WGFD) requires mandatory registration of all harvested black bears and surveys black bear hunters to quantify harvest, hunter success, and hunter effort. This information helps the Game and Fish manage black bear populations and plan next year's hunting seasons. The harvest statistics presented in this report were based on data collected from registered black bear harvests and 2,406 responses to a voluntary harvest survey sent to 6,681 license holders and extrapolated to represent 6,911 black bear hunting licenses issued. A total of 656 black bears were harvested in Wyoming during the 2025 hunting season.
